

Tempe City Council Work Study Session

Harry E. Mitchell Government Center Tempe City Hall - City Council Chambers 31 East 5th Street, Tempe, Arizona Thursday, May 05, 2016 4:00 PM

Members of the City Council may attend either in person or by telephone conference call.

AGENDA

Legal Advice: If necessary, the City Council may vote to adjourn to executive session for the purpose of obtaining legal advice from the Council's attorney on any matter listed on the agenda pursuant to A.R.S. § 38-431.03(A)(3).

1. Call to the Audience

The City Council welcomes public comment at this time for items listed under Section 2, Issue Review Session Items, on this Work Study Session agenda. There is a three-minute time limit per speaker.

2. Issue Review Session Items

- A. Challenge Day Presentation*
- B. Mayor's Youth Advisory Committee Youth Town Hall Update and Six-Month Check In*
- C. Fiscal Year 2016-17 Budget Review Session Follow-up*
- D. Tempe Sign Code Update*
- E. Future Agenda Items*

3. Call to the Audience

The City Council welcomes public comment at this time for items listed under Sections 4A and 4B, Committee of the Whole Items, on this Work Study Session agenda. There is a three-minute time limit per speaker.

4. Committee of the Whole Items

A. Items Ready for City Council Direction or Status Update

- 1. Commercial Sign Regulation Reform* City Council Direction
- 2. Yard Signs/Non-Commercial Free Speech Signs* City Council Direction
- 3. Neighborhood Libraries (Previously Little Free Libraries)* City Council Direction
- 4. Online Accessibility to City Council Conflicts of Interest Information* City Council Direction
- 5. Sustainability Coordination* City Council Direction

B. New Items for City Council Consideration

- Separation Distance Requirements for Firearms Dealers, Pawn Shops, and Gold Buying Establishments*
- 2. "Housing First" Approach to Homelessness in Tempe*
- 3. Free Arts Programming In Neighborhood Parks*

C. Items in Progress - updates as needed

- 1. Animal Waste Removal in Right-of-Way Councilmember Granville (To be determined)
- 2. Anti-Discrimination Ordinance Update (EQAZ Municipality Equality Index) Vice Mayor Woods and Councilmembers Granville and Navarro (May 12, 2016 Regular Council Meeting)
- 3. Art Murals on Commercial Property Mayor Mitchell, Vice Mayor Woods, and Councilmember Arredondo-Savage (To be determined)
- 4. Birchett Park, ASU/Tempe Gateway Councilmember Navarro (To be determined)
- Campaign Finance Reform for Tempe City Elections/Lobbyist Registration Mayor Mitchell, Vice Mayor Woods, and Councilmember Kuby (To be determined)
- 6. City Utility Boxes Councilmember Navarro (To be determined)
- 7. Dementia Friendly City Mayor Mitchell (To be determined)
- 8. Electric Bike Ordinance Councilmembers Arredondo-Savage, Kuby, and Schapira (To be determined)
- 9. Equal Pay for Equal Work Ordinance Councilmembers Arredondo-Savage, Kuby, and Schapira (To be determined)
- 10. Kid Zone Program Expansion Mayor Mitchell and Councilmembers Navarro and Schapira (To be determined)
- 11. My Brother's Keeper Designation Mayor Mitchell and Vice Mayor Woods (To be determined)
- 12. Plastic Bag Ban Vice Mayor Woods and Councilmembers Kuby and Navarro (To be determined)
- 13. Small House Community (Tiny Houses) Vice Mayor Woods and Councilmembers Kuby and Schapira (To be determined)
- 14. Temporary Cables in the Right-of-Way Councilmember Schapira (To be determined)
- 15. Unmanned Aircraft Regulation Councilmember Navarro (To be determined)
- 16. Water Conservation Program and Policy Councilmembers Granville and Kuby (To be determined)
- D. Items Scheduled for Periodic Review*

5. Mayor's Announcements/City Manager's Announcements

The Mayor and/or City Manager may make announcements regarding current events that are not on the agenda. No discussion or legal action will be taken regarding these announcements.

6. Next Meeting Date: May 23, 2016

According to the Arizona Open Meeting Law, the City Council may only discuss matters listed on the City Council agenda. Members of the City Council may attend either in person or by telephone conference call. The City of Tempe endeavors to make all public meetings accessible to persons with disabilities. With 72 hours advance notice, special assistance is available at public meetings for sight and/or hearing-impaired persons. Please call 350-2905 (voice) or 350-2750 (TDD) to request an accommodation to participate in the City Council meeting.

Watch this meeting live on Cox cable channel 11 or www.tempe.gov/tempe11. Video replay of this meeting is available the next day at www.tempe.gov/tempe11.

Diversity Office

To: Mayor and City Council

From: Rosa Inchausti, Director of Strategic Management and Diversity

Date: April 22, 2016

Subject: Challenge Day Update

The Office of Strategic Management and Diversity and the Human Relations Commission, in partnership with the Tempe Union High School District and the Tempe Elementary School District, brought the Challenge Day Program to all seven high schools and one middle school (Gilliland) this past January. This powerful endeavor was made possible due to the generosity of the Tempe Police Department's allotment of RICO funds.

Challenge Day is a nationally renowned program that was featured on Oprah and MTV that goes beyond traditional anti-bullying efforts, builds empathy and ignites a movement of compassion and positive change. The day-long, interactive program is designed for at-risk youth and provides teens and adults with tools to tear down walls of separation and inspires participants to live, study and work in an encouraging environment of acceptance, love and respect. The participants are selected by school administrators, teachers, and counselors, who seek youth who are disconnected, struggling and at-risk. The beauty of Challenge Day is that in addition to the at-risk students, a portion of the participants are also selected for their leadership skills. This allows the at-risk students to see first-hand that all youth struggle with real life issues, and ultimately bridges relationships between the leaders and the struggling. The Challenge Day program increases self-esteem and help shift dangerous peer pressure to positive interactions.

Collectively, almost 1,000 students and 200 adult volunteers participated in the program. On March 3rd, the Diversity Office staff, along with members of the Human Relations Commission, met with the TUHSD administrators to recap their Challenge Day experiences. School administrators reported overwhelming positive differences in the teens who participated, and the individual schools have already created ongoing "Be the Change" clubs to continue the experience. The schools wish to continue offering Challenge Day and dates have already been scheduled for October, 2016.

The Human Relations Commission would like to give an update on the success of Challenge Day, as well as the upcoming Unity Grants selection. Additionally they wish to thank the City Council for their continued support. Dr. Kenneth Baca, Superintendent of the Tempe Union High School District, and Christine Busch, Superintendent of the Tempe Elementary School District will join Jay Scherotter, past Human Relations Commissioner for the presentation at WSS on May 5th.

Memorandum

Human Services

To: Mayor and City Council

From: Naomi Farrell, Human Services Director, (480) 350-5428

Date: April 21, 2016

Subject: Mayor's Youth Advisory Commission Annual Report and Six Month

Update

The Mayor's Youth Advisory Commission (MYAC) celebrated its thirty-sixth anniversary serving our community and representing Tempe's youth. Over the years, the Commission has become a model for civic involvement and has been replicated in other communities around the State.

On Thursday, May 5, 2016 MYAC will present their 2015-16 annual report. 2015-16 MYAC Chair, 2015-16 Youth Town Hall Chair, and MYAC member will be presenting the information. An overview of this year's Youth Town Hall and a summary of the resulting recommendations will be provided. In addition, MYAC members will update the Council on MYAC activities during the past six months.

City of Tempe

Mayor's Youth Advisory Commission

Youth Town Hall Report

2016

Dear Mayor and City Council:

This has been another productive year for the Mayor's Youth Advisory Commission (MYAC). The activities organized by MYAC have allowed Tempe's youth to contribute their ideas and assist in the continued development of our city. We would like to thank you for your on-going support of our Commission and its projects.

The events sponsored by MYAC this year were very successful. We developed and provided the "Seed 'n Lead" project that promoted City of Tempe Recycling services and sustainability projects to elementary school aged children. The project was very well received by Kid Zone students and we hope to continue similar community service projects in the future.

Our annual Town Hall allowed youth and community leaders to exchange ideas on issues concerning youth. A summary of the dialogue that occurred and recommendations made at Youth Town Hall are detailed in this report. These recommendations are the original ideas of Tempe's youth to solve problems our community faces.

On behalf of the Commission I would like to thank you again for your dedication and commitment to the youth of Tempe. The successes we have had could not have been achieved without your support.

Sincerely,

Daniel Bish, Youth Town Hall Chair Mayor's Youth Advisory Commission

Tempe Youth Town Hall Report

Presented by Daniel Bish

Youth Town Hall Chair

The Mayor's Youth Advisory Commission sponsors Tempe's Youth Town Hall each year to bring together teens and adults from the community to discuss issues of concern to Tempe's youth and offer recommendations for practical solutions to these issues.

This was Tempe's thirty-sixth year to sponsor Youth Town Hall and was held Tuesday, February 23, 2016 at the Westside Community Center. To ensure input from all sectors of our community, representatives from high schools, middle schools, service clubs, youth organizations, community centers, local businesses, the police department, and juvenile court were invited to participate.

Participants were divided into six discussion groups covering three topic areas. Two groups discussed "Promoting Social Acceptance" and two other groups discussed "Promoting Successful Futures." The remaining two groups addressed "Youth Enhancing School Environments."

After enjoying welcoming comments by Mayor Mark Mitchell participants met in their issue groups. They began discussion of their assigned topic by defining the problem and possible contributing factors. Groups then made recommendations for solutions and focused on those that were practical and could be easily implemented. Youth spokespersons from each of the discussion groups presented their committee's recommendations to all Town Hall participants in the closing general session. These presentations gave those in attendance the opportunity to gain understanding and insight from each other.

The Youth Town Hall Report is available to various agencies, organizations, schools and service clubs to review and use as a planning tool in our community. We hope that Youth Town Hall will continue to be a success and a model on how to effectively get input directly from youth on issues that impact them.

CITY OF TEMPE YOUTH TOWN HALL AGENDA

Tuesday, February 23, 2016 Westside Community Center 715 West Fifth Street

8:10 - 8:30	<u>Registration</u>	Front of Westside Community Center Continental Breakfast provided

1:45 - 2:05	<u>Closing Session</u> – Westsi	de Community Center Gymnasium
	Committee Summaries Each committee represen	ntative will give a 3 to 5 minute summary.

Closing Remarks - Daniel Bish, Youth Town Hall Chairperson

Promoting Social Acceptance - 1

Discussion Group Summary:

The group discussion focused on encouraging social acceptance by fighting against negative peer pressure which often leads people of all ages to change who they are and suffer mental and physical effects. These mental and physical effects can include depression, less focus in school, and engaging in risky behaviors such as drug and alcohol use. While it is easier said than done, the group agreed that people need to have a strong sense of themselves and not be afraid to be different. Activities, groups and clubs that work to promote social acceptance in the schools were also identified: Challenge Day, Best Buddies, Stand and Serve, All Stars, Speak Up- Reach Out, and Link Crew. The group felt that these clubs could help to weave a "culture of kindness" into school classes, sports, and activities to build a stronger sense of community and acceptance at school.

Recommendations:

1. Develop the APP Crew in Tempe middle and high schools.

The APP (Against Peer Pressure) Crew would be a student-led club/organization in each middle school and high school whose focus would be to help students feel accepted. The APP Crew would create an infrastructure and make students aware of existing programs as well as helping to facilitate new programs. This club would also have a Smartphone application that the City of Tempe Information Technology Department could develop with the school computer science classes. All students in Tempe middle and high schools could have access to this app. Delegates from all school APP Crews would meet to create content such as discussions threads, stories, and postings that pertain to social acceptance. This would be an easily accessible, local, friendly, and safe application similar to Tumblr.

2. Host a social acceptance City of Tempe event called, APPchella.

This event was inspired by the extremely popular musical festival called, Coachella. The City of Tempe could partner with Tempe middle and high school clubs such as Stand and Serve, Link Crew, and Speak Up-Reach Out to sponsor an event featuring music, art, and activities that promote social acceptance and diversity within the City of Tempe. The members of the Mayor's Youth Advisory Commission and delegates from the APP Crews would be the main planners of this event.

3. Develop a "Teaching Teachers" initiative.

Members of the Mayor's Youth Advisory Commission and selected students from middle and high schools would work on curriculum to be presented to teachers at an in-service training. The purpose would be to enhance teachers' awareness of the concerns and issues facing today's students and to encourage them to be attentive to peer pressure within their classrooms.

<u>Promoting Social Acceptance – 2</u>

Discussion Group Summary:

The discussion group started by defining social conformity, peer pressure, and social acceptance within Tempe middle and high schools. All of these concepts are parts of a person's desire to fit into a group of people. These concepts are an integral part of life in and outside of schools. People seek group inclusion because it helps them to feel comfortable and can encourage them to try new things. Some negative effects of people's desire to fit in include: engaging in risky behaviors like drug and alcohol use or breaking the law, a fear of expressing oneself, engaging in bullying, or simply being judgmental of others. The group then discussed how peer pressure can be used to develop activities that create a positive ripple effect in Tempe middle and high schools to encourage empathy and compassion using greater mindfulness of other people.

Recommendations:

1. Create empathy and understanding curriculum for school health classes.

Tempe health class instructors could partner with Tempe students, school counselors, and social workers to create a one-day lesson plan using free online resources. This lesson plan would instruct students on mindfulness, empathy, and understanding of other people. The class would be free and would only take one day of teaching to enhance an environment of acceptance and kindness in schools.

2. Develop "Get to Know Your Neighbors" events in Tempe.

Tempe neighborhood associations, local businesses, the City of Tempe Diversity Department, and school officials could collaborate to develop community events at Tempe Beach Park that encourage a culture of connectedness. These events would be sponsored by local businesses and would have games, prizes, coupons, and discounts at local stores to inspire people to attend. The events would have fun activities, music, and games and would create a ripple effect of acceptance and community throughout Tempe.

3. Create "Safe Places" in every school.

Tempe middle and high schools could work with students to ensure that there is a designated room in every school where students can go to express themselves. These places would have student mentors and an adult advisor who advertise and run the space.

<u>Promoting Successful Futures – 1</u>

Discussion Group Summary:

Our discussion began by defining what was meant by a successful future. The group defined success as personal happiness and individual goal achievement. They narrowed the discussion to areas of competence in interpersonal skills, civic awareness, and financial literacy. The group felt these were foundational to truly achieving a successful future. The group acknowledged that youth are generally unprepared in these areas. They believe more youth would be successful if there were greater opportunities for involvement in civic engagement through extracurricular activities and coaching from mentors/ role models. Parents and teachers would be most helpful in developing students' communication skills and exposure to real-life financial lessons. Youth agreed that on their own, they may not take the risks to develop these skills for fear of being judged by their peers.

Recommendations:

1. Enhancing financial education opportunities and classes.

The City of Tempe would promote and enhance the existing Tempe Community Council financial literacy classes for youth by increasing public outreach and providing a wide array of presenters to talk about loans, interest rates, the importance of saving, and credit card debt. The Tempe Union High School District could also sponsor a "Finance Your Future" club and/or offer classes on various financial subjects. The district would sponsor a weekend event such as 'Biz Town' so youth can have a deeper understanding of how business and finances work in the real sense.

2. Sponsor events for youth civic involvement and awareness.

The Tempe Library and the City of Tempe could hold discussions and events at the library focusing on current events, elections, and civic activities to engage and inform youth. The events could include volunteer opportunities, sustainability awareness, and promote good citizenship. This can be achieved by continuing to hold Youth Town Hall and create an environment where people find meaning and purpose to make a difference in their community.

3. Promote interpersonal and communication skills through existing city programs.

MYAC members would promote youth communication workshops at their schools. These workshops would be provided by the Genesis Program, ACYR, and College Connect at the Tempe Public Library. Topics would include various communication skill sets such as job

interviewing. The workshops would be held at the library to provide a safe and accessible place for students to have face to face interactions with each other and program instructors.

<u>Promoting Successful Futures – 2</u>

Discussion Group Summary:

Our discussion focused on promoting successful futures by increasing opportunities for youth to learn about civic engagement, leadership, and financial literacy. Often, young people do not feel that they have a voice and are left out of the political process. In addition their parents do not inform them about financial literacy. As a result, youth do not know who to ask, or what to ask about these important life skills. Consequently, youth become disinterested in these topics and they often give up on learning more about them. The group members felt that these matters need to start with families but schools are the best place to increase awareness about these issues. The group concluded that the city and schools need to increase opportunities for engagement in civics, finances, and youth leadership to increase students' potential for a successful future.

Recommendations:

1. Develop financial literacy elective courses in Tempe middle and high schools.

Tempe middle and high schools could increase student understanding of financial literacy by providing personal finance elective courses. These classes could be provided by health instructors in schools to increase student understanding of credit, debt, and investing. The students in the discussion felt that learning about financial literacy through courses would not only increase their knowledge and awareness of this topic, but would also provide a safe environment for them to ask questions and practice these skills.

2. Create a teen voting guide.

School clubs such as 'Constitution Club' could partner with non-profit organizations such as Inspire Arizona to create a document that details the beliefs of local and national voting candidates and would match these beliefs with topics relevant to youth- for example, educational funding. This would create greater understanding of political parties and increase students' interest in the voting process. This document would be available online and in print form at Tempe middle and high schools as well as the Tempe Public Library.

3. Create a school-based 'phone-a-friend' life line.

The city and College Connect could recruit, train, and manage adult volunteers on life skills so that youth in Tempe could call this service whenever they have questions about finances, civic engagement, or leadership opportunities in Tempe. The volunteer adults would either provide advice or refer students to professionals so students could have a safe, non-judgmental platform to talk about their personal issues and ask questions about life skills.

<u>Youth Enhancing School Environments – 1</u>

Discussion Group Summary:

Our discussion began by defining school environments. The school environment includes the classrooms, students, teachers, and extracurricular activities. Several factors affect how students engage with this environment such as the physical appearance of the school and students' relationships with their teachers, other students, and the school staff. Often times, classroom sizes are too large for students to connect with teachers and their fellow students and some teachers do not maintain a positive atmosphere in their classrooms. The group felt that enhancing the physical appearance of schools as well as providing a safe and inviting atmosphere is highly critical because many students see school as a safe haven. Schools are also a central hub for student learning, inspiration, and preparation for their future goals.

Recommendations:

1. Create a 'Club for Clubs.'

The Mayor's Youth Advisory Commission could recruit students to create a club that manages all financial and administrative tasks for clubs in every middle and high school so that teachers can have more time to teach. This club could also administer surveys to students and teachers to determine what clubs students want in their schools and what clubs the teachers would like to host. This club could initiate more positive interactions between teachers and students and enhance opportunities for student interests and leadership opportunities.

2. Encourage project-based learning in middle and high schools.

The Tempe Elementary and High school districts could work with the Tempe Learning Center to encourage and train teachers to create more opportunities for group projects. This initiative would provide more chances for students to interact with each other one-on-one and would help teachers to manage over-congested classrooms.

3. Create a student/ teacher school beautification task-force.

Students who are interested in art and school beautification could form a task force with City of Tempe art teachers as well as school art teachers to design and redecorate school campuses. This task force would meet during the summer months to plan projects so that they can present their ideas to the school districts for approval in the fall. Throughout the school year, student volunteers would work to implement these design plans, which might include murals, classroom decorations, and/or landscape enhancements. This recommendation would not only beautify school campuses but also provide volunteer opportunities for students and create a greater sense of community among students and adults in Tempe.

<u>Youth Enhancing School Environments – 2</u>

Discussion Group Summary:

The discussion began by describing the elements of a school environment: the physical buildings; and environmental factors that contribute to students' and teachers' physical, social, and emotional well-being. Group participants determined several key components of a positive school environment which included: trust, respect, inclusion, and a place where students feel they can be safe and belong. The group further defined respect in two categories, 'authoritative' (or adults demanding respect from students) and 'human' (or kindness). Youth in the discussion group stated that they often experience 'authoritative' respect from their teachers, though they felt that they would feel more comfortable in their school environments if teachers used 'human' respect more often. Members of the discussion group felt that often times, teachers work within a disciplinary system that focuses on negative reinforcement and this can create a discouraging environment for students. This disciplinary system also affects how students engage with one another by enforcing limited bullying prevention and over-utilizing suspension as a punishment for bullying. Discussion group participants stressed the importance of an inclusive, respectful, and positive school environment as many students consider their schools to be a safe haven.

Recommendations:

1. Develop and annual tribute to educators and students.

This student-driven initiative would partner with the city to invite community members to be involved in a special tribute to Tempe educators and schools. At each school during the first week of school, students would formally thank educators for their commitment to Tempe youth while highlighting the following components of a positive school environment: providing encouragement, focusing on positive reinforcement, being inclusive, and developing a sense of community. This tribute would provide Tempe students with a platform to encourage a safe, engaging, respectful, and joyful school environment among all students and school staff.

2. Create #TempeTogether: Social Media Blitz.

Tempe school districts and the City of Tempe's Communications Office could develop a social media blitz called, #TempeTogether. Student, city, and school social media sites would send positive messages via Twitter, Facebook, and Instagram to encourage a sense of positivity and community cohesiveness among all Tempe residents.

3. Provide verbal de-escalation classes to all students and teachers.

This initiative would be a collaborative effort between the City and the school districts. The City of Tempe could identify trainers to teach students and teachers how to de-escalate social situations before they become combative. These classes would specifically teach participants how to use body language and verbal speech skills necessary to encourage a

positive, inclusive, and respectful school environment and would extend throughout the Tempe community.

Tempe Youth WISH: (Wanting Implementation with Society's Help)

MYAC would like to highlight 2015 Youth Town Hall recommendations to develop a city Prescription Drug abuse educational event. The city could partner with schools and the Tempe Coalition to have a prescription drug awareness event at Tempe Town Lake

MEMORANDUM

Date: April 28, 2016

To: Mayor and Councilmembers

From: Ken Jones, Deputy City Manager, CFO (x8504)

Subject: FY 2016-17 Budget Review Session Follow-up

During your April 21st Work Study Session, we presented the recommended budget for fiscal year 2016-17. The City Council introduced several issues to be considered before the budget is approved and asked for additional information in order to better evaluate some budget alternatives. I have summarized the issues that were raised during that meeting and have provided information in response to Councilmembers' requests. Hopefully, this information will help facilitate constructive debate of the issues during the follow-up discussion during your May 5th Work Study Session.

I. Is funding available, beyond what is proposed in the recommended budget, to address issues raised by Councilmembers?

Response: As discussed on April 21st, relatively small recurring budget increases and, to a greater extent, non-recurring budget increases can be added to the budget without impacting other budgeted items. Large, recurring increases would require some shifting unless additional revenue sources are identified.

A \$1.5 million General Fund contingency is proposed, which can only be spent with City Council approval during the year. \$250,000 of that amount is set aside for potential needs identified through the strategic planning process.

At the City Council's direction, we continue to reserve the GPLET lease revenue from the Grigio/Picerne, Zaremba and Liberty developments as well as the land sale proceeds from Liberty. Revenue received through the current fiscal year, has been dedicated, by the City Council, to increased capital park improvements and some cash funding for the downstream dam project. For the next 25 years, we anticipate receiving between \$800,000 and \$1 million per year in GPLET lease revenue from these three developments. For FY 2016-17, we also anticipate receiving over \$2 million in land sale proceeds from the Liberty development. During your March 17th CIP review, the City Council directed staff to set aside approximately \$700,000 of this reserved revenue as a secure funding source for the increased cost of the McClintock Pool project, with the understanding that bond authorization will be sought in November, which would free-up the GPLET revenue again. To date, the City Council has used the reserved GPLET and land sale proceeds for specific non-recurring projects and there were past discussions about using the

proceeds to relocate the Public Works yard from Priest/Rio Salado because Liberty has rights to propose purchase and development of that location. No contingency budget has been established to spend the reserved GPLET lease and land sale proceeds next fiscal year, beyond the pledge to use the funding for the McClintock pool, if necessary.

II. Request additional detail of all supplemental budget requests submitted by departments

Response: Attachment A is an updated version of the Budget Review Session document. In the supplemental budget section, the descriptions of supplemental budget requests provide links to the detailed information provided for each proposal. The links to detailed information are provided for those requests recommended for funding, as well as those not recommended for funding so Councilmembers can see the departments' needs that are not being addressed in the budget.

III. Request for more information related to a supplemental budget request to fund investigative work emerging from the processing of rape kits.

Response: The Police Department has completed a supplemental budget request form (Attachment B), describing the need for a \$150,000 non-recurring addition to their General Fund budget to hire two temporary detectives. This request has not gone through the normal review/prioritization process, but we believe it is reasonable to provide Chief Moir an opportunity to request funding that she deems necessary since she came on-board in the middle of the budget-preparation process and has since found an issue that she believes needs to be addressed. The City Manager supports the request for one-time funding.

IV. Proposed consideration for increasing funding for the Tempe Community Action Agency (TCAA)

Response: Attachment C contains information provided by Human Services related to Tempe's funding of TCAA over the past several years, as well as information provided by TCAA regarding their total funding. According to Human Services, the TCAA agreement expires June 30, 2016 and increased funding will be discussed. If increased funding is anticipated/recommended by the City Council, staff can plan for an increase in July.

V. Proposed budget for a Sustainability Coordinator position, which might be partially funded by ASU.

Response: Councilmember Kuby is scheduled to provide a report/recommendation from the Sustainability Coordination Working Group during the April 21st COW meeting, which should include details of the issue to be addressed and the proposed solution. Staff will wait for budget direction from the City Council that might result from that discussion.

VI. Request to consider the possibility of adding drinking fountains to the Highline Canal Path (Baseline-Knox) capital project.

Response: Public Works has provided a response in Attachment D

VII. Request to consider altering the planned construction schedule for bus pull-outs in order to accelerate installations on more congested arterials (e.g., McClintock Dr.)

Response: Public Works' response to this request is also contained in Attachment D

VIII. Request to consider a larger budget for the Maryanne Corder Neighborhood Grant Program.

Response: The City Council asked for specific information in order to consider the issue of increased funding: What total neighborhood grant amounts were budgeted in the past and what neighborhoods and HOA's have been receiving grants? Following is a list of annual neighborhood grant budgets. Attachment E contains a listing of annual neighborhood grant awards since 1995 and a one-page summary of all neighborhood and homeowner associations and their respective neighborhood grant awards.

FY	Amount Available	Water	Maximum Amount per project
1994/1995	\$100,000		\$10,000
1995/1996	\$100,000		\$10,000
1996/1997	\$150,000		\$10,000
1997/1998	\$150,000		\$10,000
1998/1999	\$160,000		\$10,000
1999/2000	\$175,000		\$10,000
2000/2001	\$175,000		\$10,000
2001/2002	\$225,000		\$12,000
2002/2003	\$225,000		\$12,000
2003/2004	\$225,000		\$12,000
2004/2005	\$225,000		\$12,000
2005/2006	\$225,000		\$12,000
2006/2007	\$225,000		\$12,000
2007/2008	\$225,000		\$12,000
2008/2009	\$250,000		\$12,000/one \$50,000
2009/2010	\$250,000		\$12,000/one \$50,000
2010/2011	\$84,200		\$10,000
2011/2012	\$89,140		\$10,000
2012/2013	\$100,625		\$10,000
2013/2014	\$150,000		\$10,000
2014/2015	\$150,000		\$10,000
2015/2016	\$150,000	\$30,000	\$10,000

The City Council also asked if the City could make the process easier for associations that have not participated in the program by developing standard applications for common requests?

Following is a response from the Neighborhoods Office:

We've tried our best to provide a simple/standardized application and assist associations throughout the process. The grant program as it's currently set up is to fund neighborhood initiated capital projects that have a neighborhood wide benefit. Each project is so unique to the neighborhood asking that what works for one may not apply to another. For example, one that Kolby asked me about was standpipe art. For that application, it's not just "we want art on standpipes" so cut and paste what Maple Ash did. The application addresses how the community was involved in selecting the project, a call to artists that specifies what type/theme the neighborhood would like, how the project would benefit the neighborhood, etc.

I would put out there that what might be more helpful to associations is now that the program is funded out of the Operating Budget, instead of one grant program to address all neighborhood needs, we explore the creation of a "mini" grant program that could fund smaller and/or non-capital projects like a GAIN event, little libraries, and neighborhood signage. To wait for the one time a year and compete against larger capital projects might not make the most sense.

IX. Request more information to determine whether the proposed supplemental budget for the Code Compliance function is sufficient to meet established goals.

Response: The Community Development Department provided the following response: The budget request from Community Development asks for the following to be added to our ongoing FY 2016-17 budget.

3 FTE code personnel, permanent, converted from temporary full-time positions 2 FTE code personnel, temporary contract full-time, for one additional year

This will allow us to continue to provide two-inspector per area proactive inspections with more consistency and availability for follow-up than what would be accomplished with temporary employees only.

Below are residential property condition survey results from previous years:

		2013	2014	2015	2016	Goal
*	Weeds:	4.46	4.40	4.24	4.41	4.71
*	Dead Vegetation:	4.90	4.65	4.74	4.72	4.71
*	Un-registered Vehicles:	4.56	4.89	4.90	4.88	4.71
*	Vehicle Parking:	4.51	4.49	4.56	4.64	4.71
*	Building Maintenance:	4.36	3.14	3.83	3.68	4.71
*	Visible Debris:	4.73	4.66	4.75	4.79	4.71
*	Total Result:					
(max 30, min score 6)	27.52	26.23	27.02	27.12	28.25

 ^{*}Categorical Scores given on a scale from +5 where 5 is Perfect
 *Mandrey Total score is out of se.

Expected residential survey performance with the resources identified in the proposed 2016-17 budget are as follows:

Weeds: 4.44
Dead Vegetation: 4.75
Unregistered Vehicles: 4.91
Vehicle Parking 4.68
Building Maintenance 3.80
Visible Debris 4.85

Total projected: 27.43 % of goal (28.25): 97%

The projections above take into account the anticipated changes to code enforcement policy to be implemented during this current fiscal year:

- Reinspection fee for non-responsive or "repeat offender" violators
- Streamlined options for commercial property owners to bring landscaping into compliance without having to go through a costly and time consuming approval process.
- Continued analysis and mapping of enforcement efforts to maximize efficiency and effectiveness of inspections.

X. Request more information regarding how results of citizen satisfaction surveys are incorporated into budget priorities.

Response: In the CIP prioritization process, one of the criteria used by staff to evaluate proposed projects is feedback from citizens. Results of the citizen satisfaction survey are included in that analysis. The strategic planning process currently underway involves the establishment of measurable performance outcomes. We anticipate that survey results will be used as established measurements of performance in some cases.

XI. Suggestion to incorporate strategic management into the upcoming City Council Retreat.

Response: The Strategic Management and Diversity Office Director will be prepared to present updated strategic planning progress at the next City Council retreat.

Memorandum

City Manager's Office

REVISED

TO: Mayor and Council

FROM: Ken Jones, Deputy City Manager, CFO (480-350-8504)

THROUGH: Andrew Ching, City Manager

DATE: April 21, 2016

SUBJECT: Fiscal Year 2016-17 Annual Financial Program

The City's Annual Financial
Program is a presentation of the
recommended operating and capital
budgets for all funds. It provides an
opportunity for Councilmembers to
review the proposed changes from the
prior year's budget and how operational
priorities are being addressed. This
overall review of the City's
recommended budget will be followed
in the next two months by formal
adoption of the fiscal year 2016-17
operating and capital budgets, as well as

Annual Fina	ncial Progra	ım
	FY 2015-16	FY 2016-17
	Budget	Recommended
Operating Budget	\$444,698,112	\$437,545,285
Percent Change		(1.6%)
Capital Improvements Budget	\$162,829,772	\$142,205,706
Percent Change		(12.7%)
Total Financial Program	\$607,527,884	\$605,390,127
		(0.4%)
		\$579,750,991
Percent Change		(4.6%)

the establishment of the City's property tax levy for next year.

The recommended financial program for FY 2016-17 totals \$605.4 million, \$579.7 million, reflecting an overall \$2.1 million or 0.4% 4.6% reduction from the FY 2015-16 financial program. In large part, decreases are due to a sizable reduction in the Capital Improvements Program (CIP). This decrease is mostly due to the completion of the Tempe Town Lake downstream dam construction.

Going forward, key budget dates include:

May 26 th	Tentative Adoption of Budget
June 9 th	Final Adoption of Budget
	Final Adoption of Capital Improvements Program
	Property Tax Ordinance Introduction and 1 st Public Hearing
June 23 rd	Property Tax Ordinance 2 nd Public Hearing and Final Adoption

Operating Budget

The recommended Operating Budget represents a decrease of 1.6% from the current year. Changes leading to the overall reduction include reduced debt service, decreased capital outlay and efficiencies gained in the enterprise funds. The Operating Budget represents the maximum amount that could be spent on operations during the fiscal year and includes a \$1.5 million General Fund contingency appropriation that can only be spent with City Council approval. Additional detail follows under the specific fund narratives.

The five-year financial forecast, presented in February of 2016, provided a long-term perspective on the projected financial condition of the major operating funds, as well as a long-range context for the City Council to use in making budgetary decisions for the upcoming fiscal year. This proposed budget is consistent with the long-term strategies approved by the City Council. We anticipate issuing the next semi-annual Long-Range Forecast in October 2016 with an updated status for each of the operating funds, incorporating current year-end data. Formal measures and strategies to continue balancing the General fund during the forecast period will be included in that Long-Range Forecast.

The budget reflects compensation provisions outlined in existing multi-year employee group Memorandums of Understanding (MOU's) and provisions anticipated for MOU's currently being negotiated for next year. Salary step increases of approximately 3% are assumed in the budget for employees moving through pay ranges in groups that do not have formal pay plans. The budget also assumes that pay ranges will be adjusted based on market survey results or that other inflationary adjustments will be made to maintain market competitiveness.

With the City Manager's initiative to formalize the City's strategic planning process, a concerted effort is underway to develop and allocate resources based on measurable performance standards, tied directly to City Council priorities. As a result, the Office of Strategic Management and Diversity was created. The office is

by General Fund
Mayor and Council
City Manager
City Clerk
City Court
City Attorney
Community Development
Community Services
Fire
Human Services
Internal Services
Police
Public Works (Engineering, Parks)

Departments Funded

responsible for the strategic management of aligning the City Council's priorities into an actionable strategic plan, and working collaboratively with the Municipal Budget Office to help allocate resources in areas of most significant impact.

In addition, the Facilities section of the Public Works Department was reorganized under the Internal Services Department to more efficiently house the functions that provide internal services to operating departments.

Approximately \$6.8 million of citywide supplemental spending authorization is included in the FY 2016-17 proposed budget, which is offset by approximately \$1.4 million in new revenue directly resulting from the increased spending. The recommended operating budget adds approximately 28 permanent full-time positions, 6 permanent full-time

equivalent positions and 5 one-time or temporary positions as shown on pages 9-10. Supplemental funding is required when departments request increases in their base operating budgets, or any new positions or programs. Supplemental increases to the General Fund approximate \$4 million, of which only \$2.1 million is recurring funding. There is also a \$312,000 revenue offset associated with the increased General Fund spending. For the other funds, supplemental budget increases were considered based on operational needs and the financial capacity of the fund to absorb the increased operating budget impact. The operating budget supplemental descriptions are summarized on pages 12-16.

FY 2016-17 Operating Budget Highlights, by Fund

General Fund

The most recent update of the Long-Range Forecast provided on February 18, 2016 projected General Fund deficits from FY 2016-17 to FY 2019-20. We have planned for limited deficit spending and a moderate drawdown of the fund balance as a result of the expiration of the temporary sales tax in June 2014. The proposed operating budget is consistent with the long-range financial plan to stabilize the General Fund and commits to maintaining the fund balance within our 20% to 30% financial policy range throughout the five-year forecast period.

To maintain a stable budget in the future, personnel costs will continue to be closely analyzed as salaries and benefits are the greatest expense in any service-oriented organization. City management continues to work with employee groups to craft MOU's that provide fair compensation plans that are financially sustainable and enable the City to attract and retain high-quality employees. This proposed budget assumes that the MOU's will reflect the compensation model that was presented at the February Long-Range Financial Forecast session earlier this year.

Following are the some major elements of the recommended General Fund budget:

- · Employee total compensation growth consistent with the Long-Range Forecast and City Council direction
- Supplemental funding of \$4.0 million to accommodate citywide departmental needs and operating impacts from the Capital Improvements Program
- Carryforward/re-appropriation of funding for encumbered contractual expenditures of \$850,000
- · Vehicle replacements approximating \$2.9 million
- Restoration of the 1% Municipal Arts funding \$191,000
- \$250,000 of the \$1.5 million General Fund contingency reserved for mid-year strategic planning initiatives

The FY 2016-17 General Fund operating budget provides funding for 16 additional permanent full-time positions, 2.9 permanent full-time equivalent positions and 4 one-time or temporary positions. Of the recommended \$4.0 million proposed supplemental funding, approximately \$975,000 was allocated to Tempe Fire Medical Rescue for Phase II of the Advanced Life Support Medical Program, emergency supplies and protective equipment. \$772,000 was allocated to Community Development for code inspection workload and building inspection support services. Nearly \$600,000 was authorized for the Police Department for the sworn overhire program, forensic services and partial funding for two school resource officers, as well as \$348,000 for digital evidence and asset management software related to capital improvement projects. Additional appropriation of \$304,000 was granted to Public Works for a parks electrician, mechanic, and transfer of funding two positions (Custodian and Groundskeeper) from the Solid Waste Fund to the General Fund. Community Services was authorized \$281,000 for enhanced security presence at the Escalante Community Center and Library Complex, library staffing and hours, and programming wages for adult recreation and kid zone programs. The Human Services Department was given a supplementary \$266,000 for the administrative shortfall in the Section 8 budget due to reduced Federal support for housing assistance programs, and case management and coordination of the CARE 7 team. Contracted services amounting to \$200,000 were allocated to the Internal Services Department for the periodic inspection of various City facilities and \$100,000 for a desktop technology refresh program stemming from a capital improvement project.

Other Funds

Water/Wastewater Enterprise Fund

The Water/Wastewater Fund is stable. The forecast assumes continued rate adjustments which are aligned with recommendations by Public Works in the recent Water & Wastewater rate study, as well as planned utilization of fund balance to finance capital projects through increased use of short-term debt and cash funding.

The 2016-17 Water/Wastewater operating budget includes \$719,000 in supplemental appropriations, including funding for a chemist and Stormwater Maintenance Program, as well as \$217,000 for an automated meter reading system related to a capital improvement project. Additionally, the budget provides \$215,000 for vehicle replacements, \$2.4 million for carryforward or re-appropriated funding and \$337,000 related to the 1% municipal arts funding.

Solid Waste Enterprise Fund

The Solid Waste Enterprise Fund had been spending-down fund balance in a planned effort to avoid rate increases for customers during the economic downturn. Going forward, a comprehensive rate analysis study and corresponding rate modification plan has been implemented and presented to the City Council by Public Works. This strategy will stabilize the fund.

The 2016-17 operating budget includes \$209,000 in supplemental appropriations for a Solid Waste Services Representative and Equipment Operator and funding for the household products collection program. The budget also provides \$2.1 million for vehicle replacements, and \$275,000 for carryforward appropriations.

Golf Enterprise Fund

The Golf Enterprise Fund continues to generate increased revenues and is projected to perform slightly better than break-even over the course of the next few years. Planned improvements to the irrigation system at the Rolling Hills Golf Course could further stabilize the fund.

The FY 2016-17 operating budget includes an appropriation of \$51,450 for supplies and services for the Rolling Hills Irrigation System stemming from the impact of the Rolling Hills capital improvement project. The budget also consists of \$169,000 for vehicle replacements.

Transit Special Revenue Fund

The Transit Fund receives the majority of its funding from the dedicated 0.5% Transit Tax. The Transit Fund is relatively stable with a healthy fund balance. Going forward, the forecast model includes an estimate for operating costs of the proposed streetcar project and the expansion of the Obit bus services farther south in the City. The long-term picture also includes a \$13 million commitment to fund a portion of the construction of the streetcar project, as well as the offsetting \$13 million in revenue anticipated from the formation of a special assessment district.

The FY 2016-17 operating budget includes an allocation of \$703,000 in capital improvement program operating impacts for the Tempe Streetcar, Broadway Streetscape Project and 8th St. Multi-Use Path. Other funding sources, including a Valley Metro reimbursement and bike program revenue, will offset the total cost by \$678,000. Additionally, there is \$127,000 in carryforward appropriations.

Highway User Revenue Fund (HURF)

The HURF revenue is comprised primarily of a share of the state-imposed tax on fuel (18 cents per gallon), but also includes a portion of vehicle license taxes and other motor carrier permits and fees. The City uses the money to fund street improvements. After sweeping over \$6.8 million from the City's distribution from 2004 to 2014, the Legislature partially restored the annual appropriations. Going forward, HURF tax collections are expected to improve slightly, providing additional cash-funding for street projects.

The FY 2016-17 operating budget includes \$377,000 in supplemental appropriations for traffic signal and barricading staffing, Intelligent Transportation Systems (ITS) Hardware and Asset Management, and equipment operation rental. Additionally, the budget consists of \$47,000 for vehicle replacements.

· Performing Arts Special Revenue Fund

Approximately 90% of the revenue in the Performing Arts Fund is derived from the City's 0.1% Arts Sales Tax. The rest is received from users of the Tempe Center for the Arts (TCA).

Revenues have not been sufficient to cover expenditures in recent years and the fund balance was depleted during this deficit period. A cumulative deficit of approximately \$0.7 million is expected to build through 2015-16, when half of the debt issued to build the TCA will be retired, resulting in a reduced annual debt service cost of \$2.5 million. After that, the annual surplus will grow to approximately \$2.5 million by 2020, when the Arts Tax expires and the remaining debt is retired. The ongoing structural deficit after 2020 is projected to be approximately \$1.8 million.

The Community Services Department's management hired consultants to study the City's funding and operations models for all art-related activities. The results of that study have been presented to the City Council and an Arts Master Plan is being developed and updated. Related operational changes have been proposed for FY 2016-17.

The FY 2016-17 operating budget includes additional funding of \$772,000 for art administrators, food and beverage coordinator, administrative assistant, performing artist series, marketing, website development and systems maintenance.

Debt Service Fund

The Debt Service Fund is used to account for payments of tax-supported debt from secondary property taxes, in support of the City's Capital Improvement Program. Because the City's property tax levy stabilization policy provides a predictable revenue stream for paying annual property tax-supported debt service payments, existing fund balance in the Debt Service Fund can be utilized to repay short term property tax supported debt. Repayment of this debt will result in spending down the fund balance in the Debt Service Fund to between 4% and 8% of outstanding property tax-supported debt, and will enhance the City's capacity to continue to issue property tax supported debt within the City's legal debt limits.

When considering projects to be funded by General Obligation (G.O.) bonds to be repaid by secondary property taxes, factors such as statutorily-established debt limits, voter authorization to issue debt, the City's ability to repay the debt with proceeds from secondary property tax levies and pay-as-you go funding and the necessity of the projects all need to be considered.

The City continues to focus on projects that are necessary to maintain or replace existing assets, and projects that enable the City to continue operating at existing service levels. The City plans to hold a bond election in November 2016 to seek voter approval for additional authorization to fund capital projects via bond financing. Bond elections are typically held by the City every 4 years.

Grants, Donations and Restricted Funds

City departments and offices receive and expend funds from numerous grants, donations and other revenues that are restricted in their use by statute or other legal mandates. Anticipated expenditures of these various funds are appropriated. In addition, a reserve appropriation amount is budgeted to allow the City to have sufficient appropriation authority to accept and spend unanticipated grants, donations, or restricted revenues during the course of the fiscal year.

The FY 2016-17 operating budget includes \$100,000 for a grant-funded Veterans' Court Coordinator. Additionally, the budget includes \$580,000 for carryforward appropriations.

• Risk Management Internal Service Fund
For FY 2016-17, a \$2 million contingency will be re-budgeted to protect the City from unanticipated claims.

The following table provides a fund-level breakdown of the City's operating budget by revenues, expenditures, and corresponding surpluses or deficits. Funds displaying a deficit in FY 2016-17 will be balanced with an appropriation of fund balance.

	Operating Budget		
	FY 2015-16	FY 2016-17	Recommended

Capital Budget

The City's five-year proposed Capital Improvement Program (CIP), covering FY 2016-17 through FY 2020-21, totals \$470,178,216. The first year of the CIP is incorporated into the City's FY 2016-17 annual budget and totals \$142,205,706. The CIP continues to focus on projects that are necessary to maintain or replace existing assets, enable the City to operate at existing service levels and some system expansion in areas where the City Council has identified a priority.

The CIP is funded by enterprise-supported bonds, enterprise cash, dedicated special revenues, general obligation (G.O.) bonds, grants and some General Fund cash. G.O. bonds are issued to fund projects under the General Purpose and Transportation programs and are repaid with secondary property taxes. The total amount of G.O. bond funding in the CIP is determined within the parameters of the City's property tax levy stabilization policy, debt service reserve policy, voter authorization to issue debt and statutorily-established debt limits.

	f Funding Request	One-Time	Approval	Sylvia Moir			
The purpo of fifteen untested	Briefly describe the supplement request. The purpose of this supplemental is to request the addition of two temporary Detective positions to the Tempe Police Department's Special Victims Unit for a period of fifteen months. These two detectives will be utilized to assist with the additional, unanticipated workload created as a result of processing approximately 500, untested Sexual Assault Kits (SAKs) as part of the DANY that was recently awarded to the police department.						
not approbjective These SAk at the tim available a added to b Based on form of ac	Explain the need (justification) for this additional funding request. Your explanation should address the following, where applicable: 1) Is there a legal and/or contractual obligation that needs to be met?; 2) Would there be a negative impact on public and/or employee health and safety if not approved; 3) Is funding necessary to maintain current service levels; 4) Is funding necessary to meet specific performance measures or objectives?, and; 5) Would funding this request save the City money in the future and/or enable the City to leverage money from another source? These SAKs were not initially tested for a multitude of reasons such as the victim was unwilling to aid prosecution, DPS and/or Department policies and/or practices at the time of collection did not support testing, the suspect was known and consent was not in dispute and/or the scientific ability to process DNA samples was not available at the time the sample was collected. Under the requirements of the DANY Grant, all kits are to be tested so that as many of the DNA profiles can be added to CODIS as possible. CODIS is a national database. The only exception would be cases that were unfounded and it was determined that no crime occurred. Based on feedback received from other police departments, we believe that testing these 500 kits will generate additional work for the Special Victims Unit in the form of additional investigative steps as may be determined by the Maricopa County Attorney's Office and potentially additional follow-up with the victims. Although the true impact of testing these kits is not yet known, the Detectives from the Special Victims Unit believe that these additional resources will be needed to

MEMORANDUM

Public Works Department

Date: April 27, 2016

To: Tempe City Council

From: Shelly Seyler, Deputy Public Works Director – Transportation (350-8854)

Thru: Don Bessler, Public Works Director (350-8205)

Subject: Follow-up information requested at April 21, 2016 Issue Review Session

regarding drinking Fountains and bus pullout prioritization

PURPOSE

The purpose of this memo is to provide additional information regarding questions asked by Council at the April 21, 2016 Issue Review Session related to drinking fountains along multi-use paths and the bus pullout prioritization list.

1. Council request for additional information regarding drinking fountains on the Highline Canal Multi-use Path: What are the reasons for not installing drinking fountains on the Highline Canal Multi-use Path (MUP) from Baseline to Knox? If, after hearing the reasons for not including drinking fountains, the City Council wanted to have drinking fountains installed, how much would it cost and how would we pay for them; with additional Transit Tax funding or reduce costs elsewhere in the project?

Response: Historically, drinking fountains have not been included in the design of multi-use paths in Tempe due to vandalism and cost. In addition, some water fountains are also subject to inappropriate use. Water fountains are low volume use and difficult to maintain and keep in operating order. Tempe's current practice is to not install them, but instead rely on the adjacent city park facilities, which are less isolated, for this amenity. For example, on the Western Canal MUP, there are water fountains that can be accessed at Ken McDonald Golf Course Clubhouse and 4th Hole and Kiwanis Park Boat Rental area. For the newly constructed El Paso MUP, there are drinking fountains available at Fiesta Playground.

According to the city of Scottsdale, they do not add any water fountains along paths unless they are in a park. Per the city of Mesa, they have installed water fountains on shared use paths in the past and still have a few that are operative, but have since stopped installing them. The reasoning behind this decision was twofold: cost (approximately \$10,000 per unit) and vandalism.

If water fountains were to be added to the Highline Canal MUP project, it could cost approximately \$15,000 per water fountain for a total of \$60,000. Since water fountains were not initially included in the project, the cost of the water fountains has to be funded locally.

If the Council wanted to add water fountains to the Highline Canal MUP, the recommendation is to install them directly adjacent to the pathways in the parks which would be approximately 60% of a stand-alone pathway unit; largely due to the issues of meters and service runs. The recommendation by the Water Division is to install drinking fountains along the Highline Canal MUP close to the water mainline. Water mainlines are located close to the streets, and short runs will maintain sanitary water conditions and reduce the cost of installation. Drinking fountains need to be bled daily to maintain sanitary water conditions in the delivery pipes. There are four potential locations identified by staff for water fountains located along Highline Canal MUP:

- City boundary between Town of Guadalupe and Tempe the location is also where the Western Canal Extension will meet Highline Canal MUP;
- Beginning of the MUP at Elliot, west of the apartment complex;
- West Auto Drive and the Western Canal; and
- Warner Road and the Western Canal.
- 2. Council request for additional regarding bus pullout locations: Please provide the planned schedule for installing new bus pullouts and describe the rationale for scheduling different locations. Please address the proposal to accelerate bus pullouts on arterials with heavier traffic flow (e.g., McClintock Drive) and possibly delay installations on other streets.

Response: Table 1 provides the list of bus pullout locations identified by staff to be on the priority list. The locations were selected using factors identified below as a part of the Transportation Master Plan, which was adopted by the City Council in January 2015. Bus pullouts provide an area for transit buses to stop outside of the traffic lane. Although they are helpful for overall roadway operations, pullouts can cause delays for transit passengers because the bus must exit and re-enter the flow of traffic and many times drivers do not yield to the buses as they try to re-enter traffic.

35	Southbound	Kyrene	Elliot	Far Side
36	Southbound	Kyrene	Warner	Far Side

Valley Metro has established design guidelines that identify locations where bus pullouts are desirable. The following is a list of those conditions:

- Traffic speeds are 40 mph or more
- Two traffic lanes or less exist in one direction of travel
- Average peak period dwell time exceeds 30 seconds or more
- End of line layover location and transfer point
- Higher incidence of reported accidents
- 11 foot width available for ample space between the traffic lane, bus pullout and sidewalk
- Location available on far side of a signalized intersection

Bus pullouts are most effective qualitatively in locations that are absent a pull-out causing delay and stacking into an intersection, especially at peak and on high volume streets at intersections where bus durations are long such as at major transfer points or bus layover locations.

A contract with CivTech Inc. will go before Council for approval on May 12, 2016 to design the first 12 (locations to be determined). Following the design, staff will then identify locations to move forward for construction as part of the Capital Improvement Program (CIP) based on what is discovered in the design process and based on feasibility. Bus pullouts may require the purchase of additional right-of-way, relocation of utilities, demolition and construction of curb, gutter and sidewalks which can significantly increase the cost. The CIP provides for the construction of about three pullouts per year. The average cost per pull-out is \$120,000 with the potential to dramatically increase based on the need to purchase right-of-way or relocate utilities

Along the McClintock Drive corridor where the street reconfiguration took place in the summer 2015, there are currently eight bus pullouts (see Table 2). As indicated above, bus pullouts are typically installed at arterial/arterial locations where the highest number of conflicts and bus boardings occur. While other locations along the McClintock corridor could be advanced, the number of bus pullouts on McClintock Drive currently in place is consistent with other two lane arterials such as Mill Avenue.

Table 2: Bus Pullout Locations on McClintock Drive between University and Guadalupe

Direction	Location
Northbound	Guadalupe
	Southern
	Del Rio
	Broadway

	Apache
Southbound	University
	Apache
	Guadalupe

If Council desires staff to advance the installation of bus pullouts on McClintock Drive at arterial to arterial intersections that currently do not have pullouts (see Table 3), that will necessitate postponing other bus pullouts as identified in Table 1.

Table 3: Arterial Locations on McClintock Drive between University and Guadalupe without Bus Pullouts

Direction	Location
Northbound	Baseline
Southbound	Broadway
	Southern
	Baseline

While there are a variety of factors that move locations onto the list as candidates, staff generally works on a first in, first out basis, unless there is a compelling event such as a street rebuild, adjacent landscaping projects, private sector participation, or the cost is so significant there is not available budget to construct. Moving McClintock Drive up in priority on the list is consistent with this practice if Council believes the recent reconfiguration on McClintock could benefit from this determination.

Memorandum

City of Tempe

Date: May 5, 2016

To: Mayor and Council Members

From: Nakagawara, David

Cc:

Subject: Revising the Tempe Sign Code in Response to Reed v. Gilbert

The rendering of the Reed v. Gilbert Supreme Court decision requires municipalities to review their sign ordinances and to rewrite said regulations in order to provide "content neutral" regulation of signage.

Staff has been in the process, with the assistance of the City Attorney's Office, to draft a new sign code format that is in compliance with the Supreme Court ruling, while substantially keeping intact the City's philosophies, as contained in the current sign code, regarding the regulation of signage within Tempe's city limits.

Enclosed herewith are a copy of the new draft sign code language, the existing sign code with strikeouts and a copy of the presentation to be shared with Mayor and Council at the Work Study Session. The format has changed markedly, and staff will be present to answer questions after their presentation.

Two Council Working Groups, Commercial Sign Regulation Reform and Yard Signs/Non-Commercial Free Speech Signs will be presenting updates to our sign code after the Work Study Session at today's Committee of the Whole (COW) meeting. If staff receives direction to make changes to our sign code, the changes will be prepared in the format being introduced to you today, in order to be in line with the dictate to regulate in a "content neutral" fashion per Reed v. Gilbert.

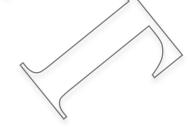

CHAPTER 9 – SIGNS

Section 4-901 Purpose and Applicability.

- **A. Purpose.** The *sign* regulations are designed to encourage proper use of signage throughout the city, while eliminating *signs* that may do not comply with the City Code. The regulations for *signs* have the following specific objectives:
 - 1. To allow for adequate and effective *signs* in all zoning districts while preventing *signs* from dominating the appearance of the area;
 - 2. To require design, construction, installation, and proper *maintenance* so that the public safety and traffic safety are not compromised; and
 - 3. To provide standards for location, size, construction, type, and number of signs;
- **B.** Applicability. The regulations in Chapter 9 are applicable to all *signs* in the city, except as noted in Section 4-902(D) and in the RCC district and all MU districts, except where otherwise noted herein. Standards for *signs* in the RCC district and all MU districts shall be established through *sign* criteria approved through a *Development Plan Review*, pursuant to Section 6-306.

Section 4-902 General Sign Standards.

- A. **Definitions.** For definitions related to signs, refer to Section 7-120, "S" Definitions.
- B. **Prohibited Signs.** Prohibited *signs* include:
 - Signs in public right-of-way that are not governed by State Law;
 - 2. Signs mounted on a building roof,

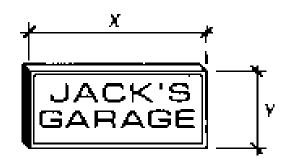

- 3. Signs that are mounted, attached, or painted on *trailers*, boats or vehicles when used as additional signage on or near the business premises; and similar *signs*. Business vehicles displaying signage or advertising shall be parked in an assigned *parking* space which is not immediately adjacent to a *street* frontage;
- 4. Signs having intermittent or flashing illumination, animated or moving parts, or that emit sound except as allowed under Section 4-903(C) and Section 4-903(E);
- 5. Freestanding changeable copy *signs*, except as allowed under Section 4-903(C), Section 4-903(F), and Section 4-903(I);
- 6. Banners, pennants, wind-driven spinners, streamers, balloons, flags, search lights, strobe lights, holographic projections, laser light displays, beacons, inflatable signs, except as otherwise provided in Section 4-903(K), and approved banner signs installed pursuant to the city's banner program;
- 7. Signs imitating official traffic control signs, or any sign or device obscuring such signs or devices;
- 8. Signs mounted on, or applied to trees, utility poles, rocks, or city owned property;
- 9. Signs placed on private property without the property owner's written approval;
- 10. Portable signs, except as permitted in Sections 4-903(J), Sections 4-903(K), Sections 4-903(D), Sections 4-903(P), Sections 4-903(Q), and
- C. Unauthorized Signs. An unauthorized sign is one that is illegally displayed in the city right-of-way, on city property, on private property without the property owner's consent, or is not in compliance with the regulations of Chapter 9, Signs within this Code. City staff may remove such signs. Unauthorized signs removed by the city shall be disposed of after the Department provides notice to the establishment identified on the sign. A notice shall be sent within thirty (30) days of removal notifying the establishment to claim the unauthorized sign at a location specified on the notice no later than thirty (30) days after the date appearing on the notice. If unclaimed after the time period, the Department will dispose of the unauthorized sign in an appropriate manner. If an establishment is not identified, the sign will be disposed of no sooner than thirty (30) days after removal, subject to prior written claim and proof of ownership delivered to the Community Development Department.
- **D. Exempt Signs.** The following *signs* are exempt from this Code:
 - 1. Traffic or other governmental *street signs*, such as railroad crossing *signs* and notices, as may be authorized by the city and do not require permits; and

- 2. Signs of public utility companies indicating danger or that serve as an aid to public safety, or that show the location of underground facilities or public telephones and do not require permits.
- E. Ceased Non-Conforming Permanent Signs. The owner, agent, tenant or person having beneficial interest in the business, property or premises on which such *sign* is located shall remove ceased non-conforming *signs*, including freestanding support *structures*, within one (1) year upon cessation of such business or sale of such product, as long as the one (1) year period of non-use is attributable at least in part to the previously designated persons or entities.
- **F. Sign Height Measurement.** *Sign* height measurements are as follows:

"Free standing Sign": Height is the distance from the top of the sign structure to the top of the adjacent street curb. The height of any monument base or other structure erected to support or ornament the sign shall be measured as part of the sign height.

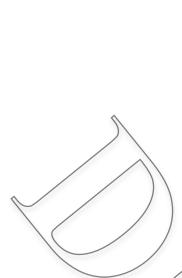

- G. Sign Area Measurement. Sign area measurements are as follows:
 - 1. Sign area includes the areas of all the following signs on site that pertain to any one business:
 - a. Awning Sign;
 - b. Building Mounted Sign;
 - c. Freeway Sign;
 - d. Service Station Sign, excluding freestanding sign; and
 - e. Marquee Sign.
 - 2. The maximum total area for the above *signs* on the premises for any one (1) business may be equal to forty (40) square feet plus one (1) square foot of *sign* area for every lineal foot of *business frontage* beyond forty (40) lineal feet, as measured by the *business frontage*. Businesses with freeway frontage may have additional *sign* area, see Section 4-903(E).
 - 3. Internal businesses and brands contained within a host business are allowed exterior signage. *Sign* area utilized by the internal business/brand shall be deducted from the *sign* area allowed for the host business sign area.
 - 4. One sign face: Area of the single face only;
 - a. Sign copy mounted or painted on a background panel or area distinctively painted, textured, illuminated, or constructed as a background for the sign copy, shall be measured as the area contained within the geometric shape of the background panel or surface; and

b. Sign copy mounted as individual letters or graphics against a wall or fascia of a building or other structure that has not been painted, textured or otherwise altered to provide a distinctive background for the sign copy, shall be measured as the area enclosed by the smallest geometric shape that will enclose all sign copy.

- 5. Multiple sign faces:
 - a. Two (2) faces: If the interior angle between the two (2) faces is forty-five (45) degrees or less, the area will be the area of one face only; if the angle between the two (2) sign faces is greater than forty-five (45) degrees, the sign area will be the sum of the areas of the two (2) faces;
 - b. Three (3) or more sides: Sign area will be calculated as fifty percent (50%) of the sum of all faces; and
 - c. Sign area for a sign with more than one component will be measured as the area of the smallest geometric shape that encompasses the components of the sign.
- 6. Free form, spherical, sculptural and other non-planar signs:
 - a. Sign area is calculated as fifty percent (50%) of the sum of the area of the four (4) vertical sides of the smallest cube that will encompass the sign.

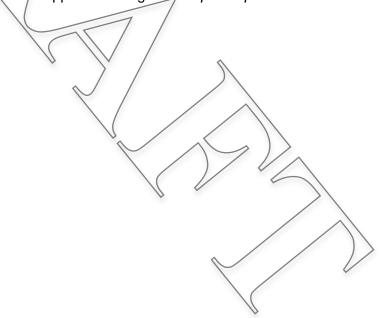

- **H. Sign Illumination** *Signs* may be illuminated internally or externally as provided by this Code (See also, Section 4-803 and 4-804, Lighting) and/or as specified by the applicable *sign* criteria.
 - 1. Sign face shall function as a filter for an internally illuminated sign;
 - Sign illumination from above shall be fully shielded;
 - 3. Sign illumination from below shall comply with Section 4-803(C)(5);
 - 4. *Illuminated signs*, except *address signs*, shall require a *sign* permit and comply with the provisions of applicable electrical codes; and
 - 5. Exposed electrical conduit or exposed raceways are allowed only with Development Plan Review approval.
- I. Sign Maintenance. Sign maintenance requirements are as follows:
 - 1. Signs on a property shall be maintained by the owner or person in possession of the property on which the sign is located. Maintenance shall be such that the signage continues to conform to the conditions imposed by the sign permit;
 - 2. A damaged *sign*, including *signs* vandalized or subjected to graffiti, shall be repaired within sixty (60) days;
 - Metal pole covers and sign cabinets shall be kept free of rust and rust stains;
 - 4. Internally *illuminated sign* cabinets or *sign* panels that have been damaged shall remain un-illuminated until repaired;
 - 5. Signs that have been damaged to such extent that it may pose a hazard to passersby, as determined by the Development Services Manager, or designee, shall be repaired or removed immediately;

4-58

- 6. Maintenance of legal non-conforming signs shall be consistent with applicable Arizona law. A legal nonconforming sign that has been damaged to the extent of more than fifty percent (50%) of its reproduction value shall be removed or altered so as to conform to the provisions of Part 3, Chapter 5, Non-Conforming Use or Development; and
- 7. Failure to comply with these sign maintenance requirements shall constitute a violation of this Code.

J. Comprehensive Sign Package.

- 1. When a site is developed as a complex or center, a comprehensive sign package shall be provided for the property, and approved through development plan review.
- 2. For tenants of a complex or center, *sign* permits will only be issued for *signs* that comply with the previously approved comprehensive *sign* package, or receive approval through *development plan* review.

Туре	P/	Location/Use (1)	Size Specifications (2)	Additional Requirements (3)	Permit
Address	Р	Any address; developments, properties or sites with perimeter walls shall have the address number visible on the outside of the wall.	Addresses shall be at least four (4) inches in height and have a color contrast with the background color of at least fifty percent (50%). Shall be self-illuminated or located eighteen (18) to thirty-six (36) inches below a light fixture. All numbers and letters shall be illuminated from dusk to dawn, unless it's a residential rear address, alley gate, curbside mailbox, or commercial rear door suite. One (1) and two (2) family dwellings shall provide four (4) inch address numbers on the front elevation and on the rear elevations when abutting an alley.	Addresses shall be visible from public access to the property. The height, quantity, size, location, color and material of address letters and numbers on buildings, signs and directories shall be as required by the Community Development Manager, designee, or through a Development Plan Review.	No
Directory	Р	Any sign with a directory on properties occupied by three or more buildings, which is not a type C Sign.	Shall not exceed six (6) feet in height or twenty-four (24) square feet in area.	Shall have an internally illuminated directory showing street address, viewer location and unit designations within the complex. Directories shall be sufficient in number and located to ensure law enforcement/emergency personnel can easily locate an address or unit.	Yes
Α	Р	Any sign attached to or part of a secondary covering or overhang not located in a residential district.	Size is determined on a one to one (1:1) ratio, and shall not exceed one (1) square foot per one (1) lineal foot of the building. Total square footage shall be calculated against total allowed sign area.	Only allowed on the ground floor or second floor of a building, illumination requires a Development Plan Review.	Yes
В	Р	Any sign mounted on a building that is not a type A sign.	Shall not exceed 80% of their horizontal/vertical backgrounds; shall not exceed building height; in a multi-family district it shall not exceed six (6) square feet or	Within three-hundred (300) feet of a freeway, on a property with no residential	Yes
С	P	Any free standing sign within five (5) feet of a business drive through on private property.	Shall not exceed forty-five (45) square feet in area and shall not exceed eight (8) feet in height. Height and area include accessory clip-ons.	May be illuminated, may transmit sound as part of a business transaction according to City Code 20-11; only two (2) type C signs per site allowed; signs shall not be placed in a clear vision triangle and shall not conflict with ADA.	Yes
D	P	Any freestanding sign that is in a complex/center, lot, or on the property of a single use building that is not a type C sign.	A type D sign in a complex/center with an area greater than five acres shall not exceed ten (10) feet in height, forty (40) square feet in area and a max of six (6) panels per sign. A type D sign in a complex/center with an area less than five acres shall not exceed eight (8) feet in height or twenty-four (24) square feet in area and a max of four (4) panels per sign. A type D sign not in a complex/center shall not exceed eight (8) feet in height or twenty-four (24) square feet in area.	material approved through a Development Plan Review. Single use buildings and all complexes and centers on a single lot are allowed one (1) freestanding sign per street frontage, or one (1) freestanding sign for every three-hundred	Yes
E	Р	Any permanent freestanding sign that is not a sign type C or D that is on a property with five-hundred (500) feet of lineal frontage adjacent to the freeway and not within 1,320 feet of a residential district measured from the property's edge. Any sign on a property with less than five-hundred (500) feet of lineal frontage adjacent to a freeway or within 1,320 feet of a residential district shall be a type D.	A type E sign requires a Development Agreement in which the size and structural design specifications will be determined.	Minimum of 672 square feet of sign trade in required. Must be within three-hundred (300) feet of freeway right-of-way.	Yes
F	Р	Any sign on a property with a primary use of theatre, museum or place of worship, with no residential use, and has a permit approved structural design that allows for changeable copy.	A type F sign in a single lot or center less than five (5) acres in net site area shall not exceed a height of eight (8) feet and shall not exceed twenty-four (24) square feet in area. A type F sign in a single lot or center greater than five (5) acres in net site area shall not exceed a height of ten (10) feet and shall not exceed forty (40) square feet in area.	Shall have a monument type base of masonry or other architectural grade material approved through Development Plan Review; one (1) type F sign per street frontage allowed, or one (1) type F sign for every three-hundred (300) feet of lineal street frontage allowed, whichever is greater. There cannot be a type F sign on the same property with a type D sign.	Yes

⁻ The P/T column shows if a sign is a permanent sign or a temporary sign.

⁻ The permit column shows if a sign requires a permit.

Туре	I	P/T	Location/Use (1)	Size Specifications (2)	Additional Requirements (3)	Permit
G		Р	Any freestanding sign within a single family district.	Shall not exceed eight (8) feet in height and shall not exceed twenty-four (24) square feet in area.	Shall be adjacent to a subdivision vehicular entrance defined by a permit; permit applications shall only be accepted in coordination with appropriate subdivision representatives; may be wall mounted or freestanding; signs may be displayed on either side of a street providing direct access to the subdivision and serving as a major entry; may be illuminated. Cannot have a sign type G if qualified for a sign type D.	Yes
Н		Р	Any flag.	Flag Poles shall not exceed thirty-five (35) feet in height.	Any individual property shall not exceed three (3) flag poles.	No
ı		Р	Any sign attached to a cano <mark>py located</mark> on a prope <mark>rty wit</mark> h a service station use.	A type I sign shall not exceed six (6) square feet.	A property with a service station use shall not exceed two (2) type I signs.	Yes
J		Т	Any sign located on a site that has been issued a building permit is immediately deemed a sign type J, and overrules any other sign type classification.	A type J sign shall not exceed 240 square feet of signage per street frontage or public open space frontage; must be attached to a temporary construction fence; shall not exceed eight (8) feet in height.	Allowed only during time of building permit issuance until final certificate of occupancy, shall require a permit to occupy or encroach on public property/easements, shall remain neat/orderly.	Yes
К		Т	Any banner, pennant, wind-driven spinners, streamers, balloons, or inflatable signs are immediately deemed a type K sign and sign type K overrules any other applicable sign type, except for type J.	Require a permit, different permits distinguish different size specifications per location/district.	A type K sign can only be displayed once in a six (6) month period for a maximum of twenty-one (21) cumulative days. Six (6) months must pass from the end date of the last type K sign being displayed for another one to be permitted. Cannot be displayed on an undeveloped property.	Yes
L		Т	Any sign located on an undeveloped property prior to the issuance of a building permit.	Shall not exceed eight (8) feet in height and shall not exceed thirty-two (32) square feet in area.	Only one (1) sign per street frontage allowed. May not be maintained for longer than twelve (12) months.	Yes
М		Т	No signs in or on a window are allowed in a residential district. Any sign in or on a window outside of a residential district are classified as a sign type M.	Shall be limited to twenty-five percent (25%) of the window's total area.	Glass doors are considered windows, requirements may be modified by Community Development for security or crime prevention reasons, shall not be placed above the ground floor of the building without Development Plan approval.	No
N		Т	Any sign in the right-of-way.	No signs are allowed in the public right-of-way.	Must Comply with State law requirements.	Yes
0		Т	Any portable sign that is located within a single-family residential district.	Total signage on property shall not exceed six (6) square feet in area and any individual type O signs shall not exceed four (4) feet in height.	Only allowed on property with owner's permission, cannot be within a clear vision triangle or obstruct a sidewalk, A-Frames are not permitted.	No
Р		т	Any portable sign within a multi-family residential district.	Shall not exceed a height of eight (8) feet and area shall not exceed six (6) square feet, A-frames cannot exceed four (4) feet in height.	A property with one(1) to five (5) units is allowed one (1) sign, six (6) or more units is allowed three (3) signs; A-frames shall not be left out overnight; shall not create a traffic hazard; shall not be placed in a traffic median, public sidewalk, bicycle path, City property, or City right-of-way between the sidewalk and curb.	No
Q		Т	Any portable sign within three (3) feet of a building or outdoor approved patio on commercial/industrial or mixed-use property.	I height A-trames shall not exceed tour (4) teet in height	Only one (1) type Q sign per tenant suite frontage; shall not be affixed to signs, poles, trees, traffic signals, benches, bike racks, or street signs; must allow a minimum three (3) feet pedestrian pathway or as otherwise required by ADA. Aframes are only allowed between 6AM and 9PM. There cannot be a sign type Q on the same property that has a sign type P.	No

⁻ The P/T column shows if a sign is a permanent sign or a temporary sign.

⁻ The permit column shows if a sign requires a permit.

^{*}Signs are only allowed in their specified districts. Any type of sign with a district type that is not approved prohibits all signs of that type in the unapproved district.

^{*}Any sign that does not specifically fit into a sign type category A-Q is not allowed within the City of Tempe.

^{*}Temporary signs and signs on residential use properties cannot be illuminated either internally or externally at any given time.

^{*}The max allotted square footage for a single business is forty (40) square feet plus a one-to-one (1:1) ratio (lineal footage : square footage) and is calculated only by the sum of all type A and B signs.

Sign Code Restructuring

Code Compliance

Signs, Signs, Signs

- Work Study Session Item: Review the Revisions to the City's Existing Sign Code to comply with Reed v. Gilbert Decision
- Later at COW: Discussion of Work Group recommendations for Political/Free Speech Signage
- Later at COW: Discussion of Work Group recommendations for regulation of Commercial Signage

Reed vs Gilbert Summary

 On July 20, 2015 the Supreme Court of the United States issued their judgment for the Reed vs. Gilbert case.

- "A law that is content based on its face is subject to strict scrutiny regardless of the government's benign motive, content-neutral justification, or lack of animus toward the ideas contained in the regulated speech."
- Because of this, Chapter 9 within the Tempe Zoning & Development Code had to be modified and much of its content replaced with a new system of sign enforcement.

Pre-Reed

Post-Reed

Restructuring Process

- 1. Identifying legal forms of regulation
- 2. Selecting the primary type of regulation

3. Redefining each sign type

4. Formulating an organized chart

Chart Design

- Type
- > Permanent/Temporary
- > Location
- Size Specifications
- > Additional Requirements
- > Permit

Key Takeaways

- This change will not effect a business' ability to display building mounted business identification signs.
- All businesses in multi-family, mixed-use, commercial and industrial districts will still be allowed to display A-frame or Upright signs.
- Signs in the public right-of-way are still prohibited, unless allowed by State Law.
- Free standing monument signs will only be regulated in areas such as size, design, materials but not copy or content.
- Businesses will be able to display banners with a valid permit.
- Billboards will still be enforced with the same regulations that are in place today, however, content cannot be regulated.

City of Tempe

TO: City Council, Committee of the Whole

FROM: Councilmember Robin Arredondo-Savage and Vice Mayor Corey Woods

RE: Commercial Sign Updates

DATE: May 5, 2016

At the August 6, 2015 Council Committee of the Whole meeting, City Council provided staff direction to conduct a comprehensive review of the sign regulations and process, and come back with potential improvements. On September 14, 2015, the Council Working Group first met to discuss direction on the topic of Commercial Sign Reform. A follow up meeting was concluded by the Council working group on October 22, 2015. A Business Stakeholders outreach discussion was conducted on March 2, 2016, as well as an online comment forum, to seek improvement Tempe's existing codes. The following is a list of action items proposed for consideration through the Council Working Group and staff:

PROPOSED CHANGES TO COMMERCIAL SIGNS:

Regulation changes

- Increase the size of freestanding <u>multi-tenant</u> signs for commercial properties less than 5 acres, with more than 4 tenants, from a maximum of 24 sf to 40 sf with up to 6 tenant signs. This would allow a consistent max size for multi-tenant centers with 40 sf size.
- 2 Maintain the size of freestanding signs for single use sites and centers with up to 4 tenants at 24 sf.
- Allow landlocked parcels to be incorporated into a center's existing rights for a freestanding sign when located within the same commercial center with street frontage (subject to authorization from the property owner).
- 4 Allow <u>updates</u> to existing sign criteria packages without Development Plan Review approval (with property owner written request). This will expedite the sign permit process.

Process changes

- 5 Over the counter permitting (by appointment)
- 6 Encourage Sign Package updates for old & outdated sign packages (outreach to property managers)

- 7 Coordinate minor building modification requests with the sign applications; eliminating the need for two separate applications/reviews.
- Finalize and implement a complete online sign permit process through the Accela Citizen Access portal. (Projected Fall 2016)
- 9 Provide additional staff support for Sign permit applications, within current budget

Outreach and Awareness

- 10 Refresh the Tempe sign website as needed.
- 11 Provide easy-to-find accessibility to the Sign Ordinance.
- 12 Provide online examples of good signage.
- Develop a Frequently Asked Questions (FAQ) page. Provide improved awareness of recent changes.
- 14 Maintain and provide instant updates to the interactive GIS map to review existing Sign Packages.
- 15 Continue to encourage public/customer feedback on our regulations and process.

PUBLIC OUTREACH NEXT STEPS:

- May 5, 2016, Updated by Council Working group on proposed changes (Seek Council direction)
- Staff to finalize draft ordinance in coordination with other Sign ordinance updates
- Feedback from Neighborhood Advisory Commission and other interest groups, if requested.
- Follow-up public meeting from stakeholders, including:
 - o Tempe Chamber of Commerce, Mary Ann Miller
 - o Tempe Businesses
 - o Sign Companies and Arizona Sign Association
- Followed by public hearings:
 - o Development Review Commission recommendation
 - o Intro/1st Hearing at City Council
 - o 2nd/Final Hearing at City Council

Commercial Signs – Business Stakeholders Meeting March 2, 2016 Tempe Public Library 5:30-7pm

Summary of comments:

- Have a F.A.Q page to answer common sign questions
- Visual examples of types and size of signs (helpful)

Color Restrictions

- Limit to 4 colors
- Preference to choose optional shade of color
- More flexibility

8 year old freestanding sign, not effective

- No one is responsible for the "sign package"
- Landlord more lenient to allow corporate companies
- Inconsistence in window coverage compliance
 - Needs consistency (equal enforcement regulation)

Buildings/Businesses that are tucked away have difficulty with sign regulations. What are the allowances of A-frame?

- Clean up those campaign signs!
- Hard to find the sign regulations
- Simplified applications and easy to use format
- Online forms and application for sign permits are needed/ feedback review sub.
- Thought-self certification for sign permits? (faster)
- Quick Q. For online question/inquiries
- Residents concerned with visual blight
- New tech. for signs and use of L.E.D
- Examples of Museum sign and movement of light on sign (?)

Name Ike's Love and Sandwiches / Teresa Hei	Check all of the boxes that apply to you Tempe business	The placement limitations for the A-frames are too limiting. We are a business located in the back of a courtyard. The allowance of 1 A-frame sign within 10 ft of my front door is really useless and does nothing to attract foot traffic and let customers know my location. The requirement that all the tenants of the courtyard have to be on the same way-pointing sign is so limiting which means that no sign will be made by the property and its	at the edge of the courtyard so that it is not on the sidewalk and obstructing foot traffic		If you've recently processed sign permits for a business in Tempe, how was your experience? I applied for the A frame sign permit in person and asked for clarification for where I could place the A frame. I recently received a warning notice that I was not allowed to place my sign by the escalator. If I had known that the only sign I was allowed was within 10 ft of my entrance, I probably wouldn't have paid for the permit because it just doesn't seem worth it.
Zach Cobian	Tempe business#Tempe resident	tenants. I do not believe they are appropriate for Downtown Tempe. Due to the unique nature of downtown Tempe the current regulations make it near impossible for some businesses to have any type of signage to help promote themselves and be a successful business.		All of the code could use some improvement but especially the section that includes A frames/way finding signs	Actually getting the permit was a painless process. The problem is I was sold a permit that due to the current sign codes I am not even allowed to use.
Jay Wisniewski	Tempe business	• • • • • • • • • • • • • • • • • • • •	A Frames should be a reasonable perimeter from the front entrance of the business, not "front door"	Way finding signs	not clear, different answers given by different employees at City
Cactus Sports	Tempe business#Tempe resident	Its kind of silly to be allowed an A frame but now have to keep it 3 feet from the building.	I'd like to use an A-frame as a further extension from the building or why have one at all.	see previous responses	n/a
Gil Schmitt	Tempe business	In the 30 + years I have been in towntown Tempe w/ a business I have watched these ordinances upheld then 2 months later everything is back to normal. You never enforce unless some one complains. Leave us alone. If you want a rule: Tacky signage ordinance with a group of business owners who vote on removal. Leave the quality ones alone. This is your pride and joy Mill Ave. but others in Tempe are not enforced. You can't have a rule that other parts of Tempe don't enforce. The worstThe banner ordinance that you pay \$120 off can only use 21 days It cost for the graphic artist, banner and time erecting to have it come down 3 weeks later.NotAllow it quarterly so we can change with the seasonsThank You	Quality produced only	Banner permit	Poor
Spencer Golish	Tempe business		12' from building would work for me.	Just the distance.	Good. Quick and relatively painless. ;)

Memorandum City Manager's Office City of Tempe

To: Mayor and Council

Through: Andrew Ching, City Manager **From:** Elizabeth Higgins, Chief of Staff

Date: April 22, 2016

Subject: Yard Signs/Non-commercial free speech signs

BACKGROUND:

In March 2014, the City Council gave direction at a COW to institute a pilot program to allow Neighborhood Associations and Homeowner's Associations (NA/HOA) registered with the city to use yard signs as a mechanism to communicate with neighbors about upcoming events or issues. The permanency of this pilot program was discussed at the February 5, 2015 Committee of the Whole (COW), and permission was given for the working group to look at changes to the sign code to allow for these non-commercial portable signs in residential areas. During this meeting Councilmember Schapira joined the working group and asked that the working group be able to examine the sign code relating to political signs.

The working group brought back recommendations to the COW on May 14, 2015 and direction was given to move forward with most of the working group's recommendations, including amending the Zoning and Development Code the language governing both non-commercial and political signs (which included adding language allowing political signs in the right of way during the period commencing 100 days before an election and fifteen days after) and continuing the NA/HOAs yard sign program on a first-come, first-serve basis. Soon after the May 14th COW, the U.S. Supreme Court released its decision on the Reed v. Town of Gilbert and held that an ordinance providing for differing regulations on signs, based on the sign's content, is unconstitutional as it would not survive strict scrutiny analysis under the First Amendment. At that time, the City Attorney's Office notified the Council that it would be reexamining and conducting a large scale rewrite of the sign code. Thus, the recommendations from the May 14th COW were delayed until they could be examined under a new proposed code.

The City Attorney's office, in concert with Community Development will be presenting a new comprehensive sign code to the Council during the May 5th Work Study Session. The proposed code organizes types of signs into 17 different categories and does not look at the content of the sign, it only regulates signage based upon physical characteristics and on reasonable time, place and manner restrictions.

This working group is looking to incorporate their recommendations to two categories of sign: Sign Type N, signs in the right-of-way; and Sign Type O, portable signs located within a single-family residential district.

Sign Type N:	Any sign in the right-of-way.	No signs are allowed in the public right-	Must Comply with State law
		of-way.	requirements.

State law requires that political signs are allowed within the City of Tempe right-of-way between the outer edge of the sidewalk and the property line. It also requires that a city or town shall not remove, alter, deface or cover any political sign as long as certain conditions are met during the period commencing 60 days before a primary election and ending fifteen days after the general election, except that for a sign for a candidate in a primary election who does not advance to the general election, the period ends fifteen days after the primary election. The City of Tempe gave direction to extend that sixty day period out to a 100 day period at the May 14th COW.

Sign Type O:	Any portable sign that is	Total signage on property shall not	Only allowed on property
	located within a single-family	exceed six (6) square feet in are and any	with owner's permission,
	district.	individual type O signs shall not exceed	cannot be within a clear
		four (4) feet in height.	vision triangle or obstruct a
		_	sidewalk, A-Frames are not
			permitted.

FOR COUNCIL DIRECTION:

The working group would like to see four changes incorporated into the staff proposed sign ordinance. The City Attorney's office and Community Development are aware of these proposed changes.

Sign Type N:	Any sign in the right-of-way.	No signs are allowed in the public right-	ALLOW FOR NON-
		of-way.	COMMERCIAL SIGNAGE,
			INCLUDING POLITICAL
			SIGNS IN THE RIGHT OF
			WAY DURING THE 100
			DAYS BEFORE AN
			ELECTION DATE AND
			ENDING FIFTEEN DAYS
			AFTER THE GENERAL
			ELECTION, BUT NOT
			ALLOW FOR
			COMMERCIAL SIGNAGE
			IN RIGHT-OF-WAY AT
			ANY TIME.

Sign Type O:	Any portable sign that is located within a single-family district.	TOTAL SIGNAGE ON PROPERTY SHALL NOT EXCEED SIXTEEN (16) SQUARE FEET IN AREA. ALONG A NON-ARTERIAL, ANY INDIVIDUAL TYPE O SIGN SHALL NOT EXCEED FOUR (4) SQUARE FEET AND SHALL NOT EXCEED FOUR (4) FEET IN HEIGHT. ALONG AN ARTERIAL, ANY INDIVIDUAL TYPE O SIGN	Only allowed on property with owner's permission, cannot be within a clear vision triangle or obstruct a sidewalk, A-Frames are not permitted.
		SHALL NOT EXCEED FOUR (4) FEET IN HEIGHT. Total signage on property shall not exceed six (6) square feet in area and any individual type O signs shall not exceed four (4) feet in height.

Memorandum

City of Tempe

Date: April 25, 2016 **To:** Mayor and Council

Through: Councilmembers Granville and Schapira

From: Kristin Gwinn, Council Aide

Subject: Neighborhood Libraries Working Group Recommendation

BACKGROUND:

On January 21, 2016, the Mayor and Council approved the request to create a City Manager's Working Group exploring the feasibility of creating a system of small, free, neighborhood libraries.

The working group met and explored what other cities have done and determined that the City can extend the reach of the Tempe Public Library into the neighborhoods by incentivizing residents to build or purchase small, neighborhood library boxes. The attached ordinance amends the Zoning and Development Code and provides for the following:

- Permits the placement of Neighborhood Library boxes, with the landowner's permission, on single-family residential lots, multi-family residential lots, church properties, public or parochial school properties, and on City properties with the authorization of the Community Development Director.
- Defines maximum dimensions for library boxes and places restrictions on where and how the boxes can be placed, protecting public right of ways, traffic flow, and ADA access.

Additionally, the working group recommends a pilot program offering residents a rebate for box construction costs of up to \$300 with their written agreement to host and maintain the box for five years and register it with a specified nonprofit registry. This pilot program would fund approximately 30-40 boxes with a maximum expenditure of \$10,000.

DIRECTION:

Respectfully request the Council approve and forward the attached ordinance to the next available Regular Council Meeting for public hearing and vote. Additionally, request that Council approve the development of a pilot rebate program to be administered by the Community Services Department.

WORKGROUP MEMBERS:

Councilmember Kolby Granville
Councilmember David Schapira
Don Bessler, Public Works Director
David Nakagawara, Community Development Director
Jeff Tamulevich, Code Enforcement Manager
Chuck Cahoy, Deputy City Attorney
Barbara Roberts, Deputy Community Services Director, Library
Elizabeth Higgins, Chief of Staff, Mayor and Council
Kristin Gwinn, Council Aide

Neighborhood Libraries Frequently Asked Questions

What is a Neighborhood Library?

A Neighborhood Library (NL) is a small, physical structure that serves as a free "take a book, leave a book" gathering place where neighbors share their favorite literature and stories.

What does the proposed ordinance do?

- 1. Permits NLs to be placed, with landowner's permission, on residential lots, church and school properties, and on City properties with authorization.
- 2. Prohibits placement of NLs in the public right of way as well as obstruction of pedestrian, bicycle, or vehicular traffic, or any obstruction of ADA accessibility.
- 3. Sets guidelines for box size no larger than 30" high, 30" wide, and 18" deep with a total height of no more than 66".

How would a resident go about installing a Neighborhood Library?

The ordinance allows a resident to build an NL box to the dimensions specified and install it on their property. After doing so, residents may turn in receipts for building expenses to the City for reimbursement up to \$300. As a condition of reimbursement, residents would need to sign an agreement with the City outlining terms and conditions.

What kind of commitment is required to host a Neighborhood Library?

In order to host an NL, residents must agree to allow the box to remain on their property for a minimum of five years, to keep it up to code, to keep it stocked and to register their NL with https://littlefreelibrary.org/registration-process/ so that residents may more easily locate nearby NLs.

Who is responsible for stocking and maintaining the Neighborhood Library?

The resident who is hosting the NL is responsible for keeping it stocked. *Friends of the Library* have agreed to provide books to those residents who request assistance with initially stocking the NL but will not be responsible for ongoing maintenance of the contents.

How do residents get reimbursed for building their own Neighborhood Library?

Residents who build their own NL boxes may download a reimbursement form from www.tempe.gov and return it to the Community Services department along with all receipts from box construction for reimbursement up to \$300. Residents may include receipt for the registration of the NL with www.littlefreelibrary.org within the allotted \$300 reimbursement.

Are there limits to how many Neighborhood Library boxes can be built or reimbursed by the city?

There is no defined limit to the number of NLs allowed in the City of Tempe, but the Working Group recommends a pilot program to cost no more than \$10,000 that would fund approximately 30-40 NL boxes across the City.

ORDINANCE NO. 02016.__

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF TEMPE, ARIZONA, AMENDING THE CITY OF TEMPE ZONING AND DEVELOPMENT CODE, PART 3 — LAND USE, CHAPTER 4, SECTION 3-401, ACCESSORY BUILDINGS, USES AND STRUCTURES

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF TEMPE, ARIZONA, as follows:

Section 1. That Section 3-401 of the Zoning and Development Code, pertaining to Accessory Buildings, Uses and Structures, is hereby amended by adding a new Subsection E, to read as follows:

E. Neighborhood Libraries

- Neighborhood libraries. Neighborhood libraries, which are gathering places where neighbors share their favorite literature and stories, are considered an accessory structure.
- Neighborhood libraries are permitted to be placed, with the landowner's permission, on single-family residential lots, multi-family residential lots, church properties, public or parochial school properties, and on City properties with the authorization of the Community Development Director. Neighborhood libraries are not permitted in public right-of-way.
- 3. Neighborhood libraries are accessory use to the property and shall conform to all of the following guidelines:
 - a. The neighborhood library shall not be located between the street and the public sidewalk.
 - b. The neighborhood library shall not obstruct vehicular, bicycle or pedestrian traffic, either physically or by a person utilizing the neighborhood library.
 - c. The neighborhood library shall not obstruct access isles or paths utilized by persons in wheelchairs or for ADA accessibility.
 - d. On residential property, the neighborhood library must be placed in the front yard between the face of the building and the right-of-way.
 - e. The neighborhood library shall be designed to hold books. The overall structure shall be limited to a height not to exceed 66 inches; a width not to exceed 30 inches; a depth not to exceed 18 inches; and the box height shall not exceed 30 inches.

- f. The neighborhood library shall be anchored to the ground or securely attached to something having a permanent location on the ground.
- g. There shall be a limit of one neighborhood library per residential property.
- h. A neighborhood library meeting the above conditions will not be subject to any permits or special licensing requirements.

<u>SECTION 2.</u> Pursuant to City Charter, Section 2.12, ordinances are effective thirty (30) days after adoption

PASSED AND ADOPTED BY THE CITY COUNCIL OF THE CITY OF TEMPE, ARIZONA, THIS __ DAY OF ______, 2016.

Memorandum

City of Tempe

TTempe

To: Council Committee of the Whole **From:** Council Working Group

Date: May 5, 2016

Subject: Transparency and City Council Conflict of Interests

BACKGROUND:

City Council Members are subject to Arizona's Conflict of Interest law, A.R.S. §§ 38-501 et. seq. Under that law, the Mayor or any Councilmember who has a "substantial interest" in a matter that comes before them must make that interest known and refrain from participating in any manner in that matter. A substantial interest is any pecuniary or proprietary interest, either direct or indirect, other than a "remote interest." A.R.S. §§ 38-501 has been adopted by reference into the Tempe City Council Rules of Procedure, Rule 2.

The working group is proposing two changes to clarify how the Council deals with Conflicts. First, it is proposed that the Rules of Procedure be amended to require use of a form provided by the Clerk to disclose any substantial interest. That form would be posted on the City's website and kept on file for public inspection. See attached proposed amendment to Rule 2.

The second proposal deals with "potential conflicts." In recent years, some council members have declared a "potential" conflict of interest on business before the council and abstained from voting, and working group members saw value in maintaining the option of making known "potential interests" in matters that did not rise to the legal definition of "substantial interest."

It is proposed, therefore, to allow disclosure of "personal involvement" in a matter before the Council on the Clerk's disclosure form, in addition to disclosing "substantial interests." The term "personal involvement" is used in Section 2.10 of the City Charter, which provides that any member that has "personal involvement" in a matter may abstain from a vote, and the working group felt that the term was more descriptive and apt than "potential conflict." See attached form.

For transparency purposes, the City Clerk's Office will make completed conflict of interest forms available on the City's website under the Council Meeting header for easy look-up and review by the public.

A "remote interest" is defined as:

- (a) That of a nonsalaried officer of a nonprofit corporation.
- (b) That of a landlord or tenant of the contracting party.
- (c) That of an attorney of a contracting party.
- (d) That of a member of a nonprofit cooperative marketing association.
- (e) The ownership of less than three per cent of the shares of a corporation for profit, provided the total annual income from dividends, including the value of stock dividends, from the corporation does not exceed five per cent of the total annual income of such officer or employee and any other payments made to him by the corporation do not exceed five per cent of his total annual income.
- (f) That of a public officer or employee in being reimbursed for his actual and necessary expenses incurred in the performance of official duty.
- (g) That of a recipient of public services generally provided by the incorporated city or town, political subdivision or state department, commission, agency, body or board of which he is a public officer or employee, on the same terms and conditions as if he were not an officer or employee.
- (h) That of a public school board member when the relative involved is not a dependent, as defined in § 43-1001, or a spouse.
- (i) That of a public officer or employee, or that of a relative of a public officer or employee, unless the contract or decision involved would confer a direct economic benefit or detriment upon the officer, employee or his relative, of any of the following:
- (i) Another political subdivision.
- (ii) A public agency of another political subdivision.
- (iii) A public agency except if it is the same governmental entity.
- (j) That of a member of a trade, business, occupation, profession or class of persons consisting of at least ten members which is no greater than the interest of the other members of that trade, business, occupation, profession or class of persons.

 Ariz. Rev. Stat. Ann. § 38-502

DIRECTION:

The working group seeks Council direction to move forward with implementing the Council Rules change on conflicts of interests and creating online public access to Council's conflict of interest declarations.

The Councilmembers working on this issue were: Councilmember Navarro Councilmember Schapira

The staff members who worked with the working group: Brigitta Kuiper, City Clerk Chuck Cahoy, Deputy City Attorney Elizabeth Higgins, Chief of Staff to the Mayor and Council Parrish Spisz, Council Aide

RETURN TO CITY CLERK

TEMPE CITY COUNCIL RULES OF PROCEDURE

RULE 1. GENERAL RULES

- A. Rules of Journal (City Charter Section 2.10(b)): The City Council shall determine its own rules, order of business, conduct of public meetings, and shall provide for keeping a journal of its proceedings. This journal shall be a public record.
- B. Written Rules, Order of Business and Procedure: The rules, order of business, and procedure of the City Council shall be in writing and be available to all interested citizens.

RULE 2. CONFLICT OF INTEREST

The provisions of Arizona Revised Statutes (A.R.S.) Title 38, Chapter 3, Article 8, §§ 38-501 to 38-511, inclusive, are incorporated herein by reference. THE MAYOR OR A COUNCILMEMBER SHALL MAKE KNOWN ANY "SUBSTANTIAL INTEREST" AS REQUIRED BY A.R.S. § 38-503 BY COMPLETING AND FILING A FORM PROVIDED BY THE CITY CLERK WITH THE CITY CLERK, WHO SHALL POST THE FORM ON THE CITY'S WEBSITE.

RULE 3. CITY COUNCIL MEETINGS

The City Council shall meet regularly at least once in every month at such times and places as the City Council may prescribe. Special meetings may be held on the call of the Mayor or of four or more Councilmembers. All meetings shall be public, except Executive Sessions which may be held for the purposes allowed by law. Study Sessions, Issue Review Sessions and Special Meetings are permissible to brief Councilmembers on various issues, including the items on the agenda of a City Council meeting. Councilmembers may attend City Council meetings telephonically, or by other technological means. All public meetings and proceedings shall conform to the requirements of A.R.S. Title 38, Chapter 3, Article 3.1, §§ 38-431 to 38-431.09 ("Arizona Open Meeting Law"), inclusive.

RULE 4. THE CITY COUNCIL AGENDAS

Staff Procedure: All reports, communications, ordinances, resolutions, contracts, documents or other matters to be submitted to the City Council shall be delivered to the City Clerk, with a copy to the City Manager.

- 1. The Mayor, City Manager and City Clerk shall review the agendas and background information material the week preceding the Council meeting. The City Clerk shall notify the Mayor of any revisions to the meeting agendas that occur after the review. The Mayor has discretion to delete or add items to the agendas, except those items specifically requested by Councilmembers in conformance with these rules.
- 2. The City Clerk shall electronically disseminate copies of the agendas and background material to the Mayor and City Council on the Friday prior to the meetings.

- 3. The agendas shall be made public in advance of the meeting by posting in accordance with the Arizona Open Meeting Law. Such action shall be taken concurrently with the furnishing of the agendas to individual members of the City Council.
- 4. Councilmembers may add items to the meeting agendas as follows:
 - a. Regular Council Meetings, Formal Council Meetings, Special Meetings, Issue Review Sessions, and Study Sessions: Request by two Councilmembers provided to the City Manager to forward to the Mayor for review. Two of the three Councilmembers in support of the agenda item have approval authority. If approved, the Mayor will notify the City Manager of the agenda item. In addition, an agenda item may be added at the request of the Mayor.
 - b. Committee meetings of the whole: Request by one Councilmember to the City Manager.
 - c. Late agenda items requested after the agendas have been disseminated may be added in conformance with these rules.

RULE 5. FORMAL OR REGULAR CITY COUNCIL MEETING ORDER OF BUSINESS

The Order of Business for a Formal or Regular Council Meeting shall be:

- 1. INVOCATION
- 2. PLEDGE OF ALLEGIANCE
- 3. MINUTES
 - A. Approval of City Council Meeting Minutes
 - B. Acceptance of Board, Commission and Committee Meeting Minutes
- 4. REPORTS AND ANNOUNCEMENTS
 - A. Mayor's Announcements
 - B. City Manager's Announcements
- CONSENT AGENDA
 - A. Miscellaneous Items
 - B. Award of Bids/Contracts
 - C. Resolutions
- NON-CONSENT AGENDA
 - A. Miscellaneous Items/Bids/Contracts/Resolutions
 - B. Ordinances and Items for Introduction and First Hearing
 - C. Ordinances and Items for Second Hearing and Final Adoption
- 7. CURRENT EVENTS/COUNCIL ANNOUNCEMENTS/FUTURE AGENDA ITEMS
- 8. PUBLIC APPEARANCES Three minute time limit per person. Speaker's visual aids or recorded visual or audio tapes will not be allowed.
 - A. Scheduled
 - B. Unscheduled

RULE 6. ISSUE REVIEW SESSIONS OR STUDY SESSIONS

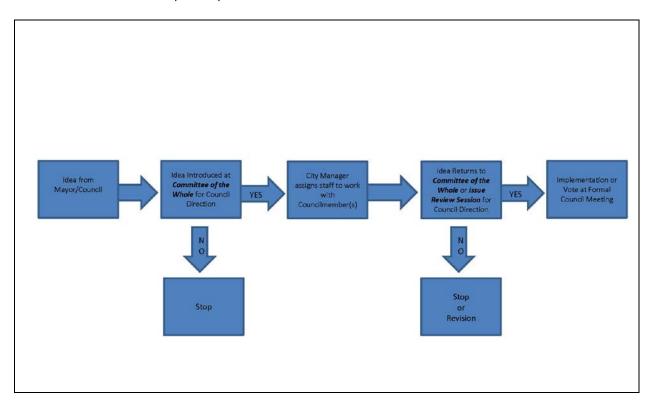

Issue Review Session or Study Session agendas typically include:

1. Call to the Audience

- 2. Agenda Items for briefing and discussions
- 3. Formal/Regular City Council Meeting Agenda Items (an opportunity to discuss any agenda items on the Formal/Regular Council meeting agenda on the same date).
- 4. Future Agenda Items
- 5. Mayor's Announcements/City Manager's Announcements

RULE 7. COMMITTEE OF THE WHOLE MEETINGS

The following flowchart outlines the process to move new ideas submitted from the Mayor or a Councilmember from concept to implementation:

Ideas either 1) introduced at the Committee of the Whole (COW) for Council direction or 2) returned to the COW or an Issue Review Session/Study Session for Council direction that are not advanced, shall not be reintroduced at a COW meeting as a new idea for one year from the date of the COW, unless circumstances presented to the City Manager or his designee, warrant a review of the idea.

RULE 8. PRESIDING OFFICER

The Mayor, or in the absence of the Mayor, the Vice Mayor, shall take the chair at the hour appointed for the City Council to meet and shall immediately call the Councilmembers to order. The presiding officer shall serve as the City Council Parliamentarian. The City Clerk shall enter in the minutes of the meeting the names of the Councilmembers present.

RULE 9. TEMPORARY CHAIR

In case of the absence of the Mayor and the Vice Mayor, the City Clerk shall call the City Council to order. If a quorum is present, the City Council shall proceed to elect, by a majority vote of those present, a Councilmember to preside over the meeting.

RULE 10. DECORUM AND ORDER

The presiding officer shall preserve decorum and decide all questions of order, subject to appeal to the City Council.

- 1. During City Council meetings, Councilmembers shall preserve order and decorum and shall not delay or interrupt the proceedings or refuse to obey the orders of the presiding officer or the Rules of the City Council. Every Councilmember desiring to speak shall address the Chair, upon recognition by the presiding officer shall confine all comments to the question under debate, and shall avoid all personalities and indecorous language. Once recognized, a Councilmember shall not be interrupted while speaking unless called to order by the presiding officer or unless a point of order is raised by another Councilmember. If a Councilmember is called to order while speaking, the Councilmember shall immediately cease speaking until the question of order is determined. If ruled to be in order, the Councilmember shall be permitted to proceed. If ruled to be not in order, the Councilmember shall remain silent or shall alter all remarks so as to comply with the rules of the City Council. If the presiding officer fails to act, any Councilmember may move to require the presiding officer to enforce the rules, and the affirmative vote of the majority of the City Council shall require the presiding officer to act.
- 2. The presiding officer shall have the authority to preserve decorum in meetings. Any remarks shall be addressed to the Chair and to any or all Councilmembers. Without permission from the presiding officer, no staff member, other than the staff member who has the floor, shall enter into any discussion, either directly or indirectly.
- 3. All persons attending City Council meetings shall observe the same rules of propriety, decorum, and good conduct applicable to members of the City Council. Any person making personal, impertinent, or slanderous remarks, or who becomes boisterous while addressing the City Council or while attending the City Council meeting, shall be removed from the room if so directed by the presiding officer. Unauthorized remarks from the audience, stomping of feet, whistles, yells, or similar demonstrations shall not be permitted by the presiding officer, who shall direct the removal of such offenders from the room. Should the presiding officer fail to act, any member of the City Council may move to require the presiding officer to enforce the rules, and the affirmative vote of the majority of the City Council shall require the presiding officer to act. Any members of the public desiring to address the City Council shall be recognized by the Chair, shall state their name and city of residence in an audible tone for the record, and shall limit

their remarks to the questions under discussion. Any remarks shall be addressed to the Chair and to any or all Councilmembers.

RULE 11. RIGHT OF APPEAL

Any Councilmember may appeal a ruling of the presiding officer to the City Council. If the appeal is seconded, the Councilmember making the appeal may briefly state the reason for the same, and the presiding officer may briefly explain the ruling, but there shall be no debate on the appeal, and no other Councilmember shall participate in the discussion. The presiding officer shall then ask the question, "Shall the decision of the Chair be sustained?" If a majority of the Councilmembers present vote "Aye," the ruling of the Chair is sustained; otherwise, it is overruled.

RULE 12. LIMITATION OF DEBATE

Without permission of the presiding officer, no member of the City Council or Public shall be allowed to speak more than once upon any one subject until all Councilmembers have had an opportunity to speak, nor for a longer time than five minutes. Citizen groups shall be represented in presentation to the City Council by one of the group's members.

RULE 13. ROLL CALL VOTE

The roll shall be taken for ayes and nays upon any questions before the City Council. It shall be out of order for members to explain their vote during the roll call. There shall be no additional debate or speaking on the subject after the vote is taken.

RULE 14. MOTIONS TO BE STATED BY PRESIDING OFFICER – WITHDRAWAL

When a motion is made and seconded, it shall be so stated by the presiding officer before debate commences. A motion may not be withdrawn by the mover without the consent of the Councilmember seconding it.

RULE 15. MOTIONS OUT OF ORDER

The presiding officer may not at any time permit a Councilmember to introduce an ordinance, resolution, or motion out of the regular order as set forth in the agenda.

RULE 16. MOTION TO ADJOURN, WHEN NOT IN ORDER, NOT DEBATABLE

A motion to adjourn shall be in order at any time, except as follows:

- a. when repeated without intervening business or discussion;
- b. when made as an interruption of a member while speaking;
- c. when the previous question has been ordered; and
- d. while a vote is being taken.

A motion to adjourn is debatable only as to the time to which the meeting is adjourned.

RULE 17. MOTION TO LAY ON TABLE

A motion to lay on the table shall preclude all amendments or debate on the subject under consideration. If the motion shall prevail, the consideration of the subject may be resumed only upon motion of a Councilmember voting with the majority of the members present.

RULE 18. DIVISION OF QUESTION

If the question contains two or more separate propositions, the presiding officer may, or upon request of a Councilmember, shall, divide the same.

RULE 19. AMEND AN AMENDMENT

A motion to amend an amendment shall be in order, but one to amend an amendment to an amendment shall not be introduced. An amendment modifying the intention of a motion shall be in order, but an amendment relating to a different matter shall not be in order.

RULE 20. RECONSIDERATION

After the decision on any question, any Councilmember who voted with the prevailing side may move for reconsideration of any action at the same or at the next succeeding meeting, provided, however, a resolution authorizing or relating to any contract may be reconsidered at any time before the final execution thereof. A motion to reconsider shall require a 2/3 vote of all Councilmembers, whether present or not, not disqualified from voting by an actual conflict of interest or who abstain from voting due to a potential conflict of interest; but, in no event, by less than four affirmative votes.

RULE 21. RESCIND

After the time for reconsideration has expired, any Councilmember who voted with the prevailing side may move to rescind any action. A motion to rescind shall require a 3/4 vote of all Councilmembers, whether present or not, not disqualified from voting by an actual conflict of interest or who abstain from voting due to a potential conflict of interest; but, in no event, by less than four affirmative votes.

RULE 22. SUSPEND THE RULES

These Rules may be suspended with previous notice by a 2/3 vote of all Councilmembers, whether present or not. A motion to suspend these Rules without previous notice shall require unanimous consent, whether present or not.

RULE 23. AMEND THE RULES

These Rules may be amended with previous notice by a 2/3 vote of all Councilmembers, whether present or not. A motion to amend these Rules without previous notice shall require unanimous consent, whether present or not.

RULE 24. WHAT OTHER RULES SHALL GOVERN

The rules of parliamentary practice, comprised in Robert's Rules of Order, latest edition, shall govern the City Council in all cases to which they are applicable, provided that they are not in conflict with these Rules or with the Charter of the City of Tempe.

Memorandum

City of Tempe

Date: April 25, 2016 **To:** Mayor and Council

Through: Councilmember Lauren Kuby **From:** Kristin Gwinn, Council Aide

Subject: Sustainability Coordination Working Group Recommendation

BACKGROUND:

On March 29, 2016, the Mayor and Council approved the request to create a City Manager's Working Group exploring the feasibility of establishing the position of Sustainability Coordinator in the City of Tempe.

ASU—mainly through the Julie Ann Wrigley Global Institute of Sustainability (GIOS), the School of Sustainability, and the Fulton Schools of Engineering—offers the City of Tempe unparalleled collaborative opportunities to consider, discover, and then work toward applied solutions to sustainability issues confronting our city.

Oftentimes, ASU presents the City of Tempe with an opportunity involving students, research or grant funding, and an applied project is pulled together reactively. With each collaborative project, the wheel is reinvented, with resulting inefficiencies and missed synergies. There are many benefits Tempe could and should be capitalizing on that, due to current staff capacity, are not being realized.

The Working Group recognizes the critical and generational need to formalize the City's approach to finding the balance among nature and climate, urban living, as well as the cost and social equity of providing municipal services. There is a perceived need to create a formal structure in the working relationship with ASU, where opportunities for student internships, funded grants, and joint piloting of community-based solutions could be more strategic, proactive, and implemented in ways consistent with established City and ASU fiscal processes.

Recommendation

Because Sustainability is a complex all-encompassing field, it important that the city have a program manager specifically dedicated to this domain, rather than to "silo" sustainability in one department or to expect that all department heads incorporate it on their own. The Study Group recommends utilizing the existing Public Works ASU Master IGA for Sustainability Research for the purposes of contracting with ASU for Sustainability Program Management services. Ideally, this contract would provide proof of concept and return on investment for the Council to consider the creation of a full-time position in Year 3. This need has been confirmed by the newly created Sustainability Commission, whose members have advocated for the establishment of such a position before the Council.

This individual would operate horizontally across the City to:

- quide the creation and execution of a sustainability plan with clear goals
- spark City of Tempe-ASU public-private-nonprofit-governmental agency partnerships to solve sustainability problems (renewable energies, water efficiency, parks, urban heat island, local food systems)
- support and work hand-in-hand with the newly created Sustainability Commission created to advise the Council

The Urban Sustainability Directors Network (USDN)

All U.S. cities making their mark in sustainability belong to the USDN, which formed in 2009 when municipal sustainability leaders recognized that local governments face similar sustainability issues without a forum to collaborate and share best practices. USDN is a rapidly growing peer-led network of local government professionals from 135 cities across the US and Canada dedicated to improving the environment, the economy, and increasing social equity (*all in all*, sustainability). Their network encourages sustainability directors/managers to share best practices and catalyze smart solutions. Arizona member cities are Phoenix, Avondale, Peoria, and Tucson. Peer cities (e.g., Austin, Seattle, Palo Alto, and Boulder) are all members and have sustainability leads

that take great benefit from their Research I universities. <u>The benefits of core membership</u> are available only to cities with a sustainability director/manager. This membership offers an:

- efficient, structured approach to information sharing and collaborative innovation, which saves cities time and money
- opportunity to request Innovation Fund grants (granted over \$6.6M for over 100 projects).

The Phoenix Example

Mark Hartman, Chief Sustainability Officer for City of Phoenix, argues that a Tempe sustainability program manager will strengthen grant applications and, more importantly, open the door to **new** grant opportunities. Below is a summary of grants Hartman has led over the last year, \$680K in awarded grants and another \$850K for which he is awaiting word. He was made aware of many of these opportunities through networks such as the USDN which is only open to sustainability professionals in cities.

Sustainability-led Grant Applications for the City of Phoenix

Awarded Grants	Description	Awarde d Amount	Portion used to cover salary			
Benchmarking Collaboration	USDN for Benchmarking	\$5,000	Travel & Expenses			
Brownfields Assessment	EPA Brownfield Remediation	\$400,00 0	Travel & Expenses			
Resilience AmeriCorps	Two Vistas + Financial Assistance	\$150,00 0	Travel & Expenses			
LEED Consultant - Housing	LEDD Consultant	\$25,000	Consultant Only			
Energize Phoenix	Conference of Mayors	\$25,000	Nonprofit Only			
USDN Innovation Grant for Sustainable Financing	Research Grant Shared with 5 Cities	\$75,000	Travel & Expenses			
GRANT & AWARD TOTAL		\$680,00 0				
Pending Grants & Awards (Sustainability Lead)						
Grant Application - CRO	100 Resilient Cities	\$300,000	Salary & Expenses			
Grant Application - Partners for Places	Advancing Social Equity	\$150,000	Consultant Only			
Gila River Indian Community	Green Events Program	\$150,000	Salary & Expenses			
Fort McDowell Indian Community	Community Education on Recycling	\$75,000	Salary & Expenses			
EPA Environmental Education Grant	Sustainability Officers in Schools Program	\$150,000	Salary & Expenses			
Conference of Mayors - Environmental Awards	Alt Fuel Program	\$25,000	Nonprofit Only			

GRANT & AWARD TOTAL		\$850,000	
ORANI & ANARD TOTAL	Ψοσο,σσο		

Rationale

The proposed Sustainability Program Management services would bridge the gap between the City's need for sustainable solutions and ASU's capacity to conduct real-world sustainability projects. Such a position comes with an expected Return on Investment (ROI) as grants are secured and awarded and as savings (i.e., energy and water) is achieved.

Housing and Reporting Structure

The Sustainability Program Management services would be housed in the City Manager's Office and take direction from the City Manager or Deputy, as appropriate.

The Sustainability Program Manager would also report quarterly to an Advisory Board composed of representatives of the funding units (Tempe City Manager or designee, ASU GIOS and ASU Engineering).

Two -Year Funding Formula

Demonstrating the need and efficacy of e Sustainability Program Management for the City of Tempe, the ASU units have proposed to following funding mode:. .

- Initial funding for Years 1 and 2
 - City of Tempe 50% (\$50K)
 - ASU GIOS 25% (\$25K)
 - ASU Engineering 25% (\$25K)

City of Tempe's Contribution (\$50K)

- \$50K in Year 1: Combination of City Manager's Strategic Initiative budget delivered through IGA funding process.
- \$50K in Year 2: Combination of City Manager's Strategic Initiative budget and tribal gaming or other grants

SUPPLEMENTAL DOCUMENTS

- 1. Exemplar Mission Statements from Recognized Sustainability Leaders
 - **Portland's** Bureau of Planning and Sustainability develops creative and practical solutions to enhance Portland's livability, preserve distinctive places, and plan for a resilient future.
 - **Seattle's** Office of Sustainability and Environment delivers cutting-edge policies and effective programs to address environmental challenges while creating vibrant communities and building shared prosperity. They break new ground, create measurable impacts and chart a path forward.
 - **New York City's** Office of Sustainability provides daily support to City Hall on sustainability issues, policy, and data-driven research; develops citywide sustainability policy, oversight, and implementation in coordination with relevant city agencies; coordinates relevant policy with federal, state, and local environmental stakeholders
- 2. Role of Sustainability Offices in Municipal Governments (see attached)
- 3. Orlando Job Description (see attached)

DIRECTION:

Respectfully request the Council approve funding in the amount of \$50,000 to be paid to Arizona State University via Intergovernmental Agreement for services involving sustainability program management. Additionally request that this line item be included in the tentative budget for Fiscal Year 2016-2017.

Councilmembers working on this issue were:

Councilmember Lauren Kuby

Staff members assisting the working group:

Steven Methvin – Deputy City Manager
Don Bessler, Public Works Director
Elizabeth Higgins, Chief of Staff, Mayor and Council
Kristin Gwinn, Council Aide
Mark Hartman – Chief Sustainability Officer, City of Phoenix
Arnim Wiek – ASU Sustainability Scientist and Tempe Sustainability Commission Member
Scott Shrake – Executive Director of ASU EPICS Program (Engineering Projects in Community Service)

urban sustainability directors network

USDN Sustainability Innovation Report

January 2016

Professional Development for Local Government Sustainability Directors

The path for individual professional development in the urban sustainability field isn't clear. In 2011, a group of USDN members created a robust, and still relevant, toolkit.

In 2011, a group of Urban Sustainability Directors Network (USDN) members explored what professional development looks like for local government sustainability directors. The result is (1) a toolkit that explores how to move towards institutionalizing sustainability in local governing structures, (2) a self-assessment tool, and (3) a sample job description for sustainability directors. Now, as we enter 2016, 76% of USDN's founding members have left their jobs as sustainability directors. Second and third generation sustainability directors are now building change in their communities, and the lessons learned in the 2011 USDN Professional Development Toolkit are increasingly important. This article explores the toolkit resources and gives interested supporters a glimpse into what it takes to create change from the inside out.

The full document can be downloaded from the <u>Innovation Products</u> database at USDN.org. The Professional Development Toolkit can be found <u>here</u>. The zip file includes:

- Evolution of a Sustainability Office Checklist
- A Self-Assessment Tool
- Sample Sustainability Director Job Description

Evolution of a Sustainability Office Checklist

This checklist is a framework to help sustainability directors make sense of the evolution and continuum of institutionalizing sustainability. Four functions of a sustainability office and four phases of evolution frame this tool. Activities range from elected officials' creation of sustainability functions and positions and obtaining funding for that work to developing community support and cultivating public expectations that sustainability initiatives will be sustained and expanded.

The Four Functions of a Sustainability Office

- Planning Government's Sustainability Initiatives: Develop vision, definition, cases, goals for sustainability, and the role of local government. Develop initiatives, plans, and budgets – within departments and across governments. Establish performance metrics, scoreboards, and progress reporting processes. Study other cities' sustainability efforts. Coordinate sustainability planning and goals across departments.
- 2. Developing a Government Culture of Sustainability: Engage employees in thinking and caring about sustainability and trying new behaviors. Conduct internal communications and education to promote a culture of sustainability. Embed sustainability goals and initiatives in employees' position descriptions and performance evaluations.

urban sustainability directors network

USDN Sustainability Innovation Report

January 2016

Professional Development for Local Government Sustainability Directors

The Four Functions of a Sustainability Office (cont'd)

- 3. Developing Community Support and Action: Communicate with public and media about the sustainability vision and initial initiatives. Develop website(s) with resources for sustainability actions. Partner with civic organizations to undertake community visioning processes and community-based sustainability education. Engage stakeholders and constituencies in developing plans and partnering with government on external initiatives. Engage leaders of communities in coordinating and collaborating. Develop a community-wide sustainability scoreboard. Support public outreach/education to increase community awareness of benefits.
- 4. Building Government's Structures for Sustainability: Create sustainability functions with staff and short-term funding. Build connections with outside expertise and peers in other cities. Fundraise to support budget and staffing for sustainability initiative development. Create technical advisory groups. Create incentives (rewards, sanctions) for departments and agencies to achieve goals. Adopt a performance scoreboard for publicizing and monitoring. Create a government-wide sustainability knowledge creation and innovation function. Use "horizontal coordination" among departments to achieve shared goals.

Sustainability Director Self-Assessment Tool

The self-assessment tool is a spreadsheet that builds on a time management framework originally developed by Dr. Steven Covey, author of *Seven Habits of Highly Effective People*. This tool focuses on the professional development opportunities that will have the most impact for sustainability directors as they define and evolve their role in City Hall. For each skill and knowledge area, the tool requires three inputs: 1) existing ability; 2) the importance of that skill or knowledge area to the position; and 3) the level of urgency for professional development in that skill or knowledge area. Based on those three factors, the tool generates a menu of recommended professional development delivery models for each competency. Self-assessors can further prioritize by filtering results based on the three inputs: ability, importance, and urgency.

Sample Sustainability Director Job Description

This job description was developed from a 2011 survey of 82 USDN members. It is not a model job description because there is a high level of local variation in responsibilities and competencies. Instead, it is a standard template that offers composite descriptions. The document includes details on the following areas:

- Variations on job title
- Job definition
- Reporting structure
- Examples of work
- Education requirements
- Experience requirements
- Knowledge and abilities requirements
- Salary range

Director of Sustainability / City of Orlando

Responsibilities

Primary responsibility for the coordination, development, refinement, administration, integration and communication of sustainability policies and practices for the City of Orlando. Responsible for establishment of a well-organized, results-oriented and cohesive sustainability plan and work program. Implements the City of Orlando's Green Works Community Action initiatives, priority policies and administrative directives. Achieves results in a manner reflective of Orlando's balanced approach to building and sustaining a livable and inclusive community; with emphasis on educational excellence, healthy neighborhoods and people, environmental quality, natural resource protection, strategic economic development, growing a green economy, quality jobs, community safety, and arts and culture.

- Serve as subject matter expert to the Mayor, city management, City Council, advisory groups, city operations, partnership entities and internal and external stakeholders for sustainability related policies, practices, programs, procedures and initiatives.
- Demonstrate passion, strong leadership and understanding of resource and water conservation, renewable resources, low impact and conservation development, comprehensive and strategic planning, green purchasing, green building, energy conservation, solid waste recycling, creative funding opportunities and environmental metrics.
- Assess, integrate, implement and recommend modifications to current sustainability policies and initiatives based on experience, expertise, analysis and national and international best practices.
- Develop and annually update an operational strategic plan based on policy and program goals and priorities of decision makers.
- Establish meaningful performance measures for effective decision making; and properly track and report on progress.
- Produce periodic reports showing progress against performance measures and other indicators; recommend new strategies to city management, committees, advisory groups, stakeholders and partners.
- Prepare and effectively communicate complex analytical work products to multiple audiences.
- Actively partner with outside agencies, governments and stakeholders to achieve and enhance sustainability, environmental quality, water quality, air quality, energy efficiency and related results.
- Provide staff support to policy groups, advisory boards, commissions and committees.
- Produce public awareness and educational campaigns which influence others to embrace sustainability practices and ideals.
- Evaluate, respond and recommend responses to proposed legislation and rules of interest that may potentially impact the City of Orlando.
- Assume lead management responsibility for all sustainability policy activities, program services, personnel, fiscal resources and customer service systems.
- Develop and implement policies and practices that optimize and evaluate city investments.
- Duties may also involve research and investigation of issues of significant interest or importance to city officials, policy development, coordination of programs, consultation with State and Federal agency staff, and the submission of reports or investigations to executive management.

Reporting Structure

The Sustainability Office is dynamic by nature with the Director of Sustainability reporting directly to the Chief Administrative Officer (CAO) and supervising two professional staff and intern(s) as applicable.

Knowledge and Abilities

Knowledge of:

- Current principles and practices of community and corporate sustainability, energy policy and efficiency, conservation, environmental design, comprehensive planning, multi-modal transportation, economic development, and related interdisciplinary concepts.
- Green economy and sustainable development principles, practices and opportunities.
- Principles and practices of public administration and public policy management.
- Data and statistical analysis, performance metrics, performance tracking and reporting.
- Fiscal management, budget development and grants administration.
- Principles and techniques of employee supervision, management and development.
- Advanced oral and written communication as well as a strong ability to educate, persuade and mobilize resources.
- Knowledge of pertinent Federal, State, and local laws, ordinances, statutes, and court decisions relating to municipal sustainability.
- Principles and techniques of employee supervision, management, team building and organizational development.

Ability to:

- Provide oversight and direction for major programs, plans and policies focused on energy management, sustainable transportation and corporate sustainability initiatives that impact municipal operations as well as the broader Orlando community.
- Communicate clearly, effectively and persuasively in all forms, to a variety of audiences.
- Gather and analyze routine and complex data, and interpret and communicate key information for decision-making and formulation of policy recommendations.
- Anticipate and avert potential problems and creatively problem solve.
- Develop strategic direction and program implementation in collaboration with various external and internal policy bodies, partners and stakeholders.
- Develop and properly manage budgets, grants and other outside funding sources; meet or exceed compliance and reporting requirements for all funding sources.
- Identify and secure funding for strategic initiatives from a variety of sources.
- Assemble, attract, retain, develop, train, equip and properly motivate an innovative, enterprising, inclusive, high performance team.

Qualifications

- Bachelor degree from an accredited university in environmental science, environmental management, environmental engineering, urban planning, architecture, business administration, public administration, and/or other related field.
- Six years of sustainability related experience; at least two years in a manager or supervisor capacity
- Master degree in a related field preferred
- LEED GA certification highly desirable

Compensation and Benefits

Salary ranges from \$72,384 to \$117,561 depending on experience and qualifications. This is an appointed position: the incumbent serves at the pleasure of the Mayor. Competitive and comprehensive benefits package including: Health Care, Deferred Compensation (401 and 457 accounts), Life Insurance, Holidays, and Personal Leave/Vacation.

CITY COUNCIL COMMITTEE OF THE WHOLE (COW) New Item for Review and Consideration

Meeting Date: 05/05/2016 Agenda Item: 4B1

<u>Issue Description:</u> Modify City's Zoning Development Code to include language that requires a set separation distance between firearms dealers / pawn shops, gold buying establishments, and residential neighborhoods, schools, and parks.

Presented by: Councilmember Granville, Mayor Mitchell, Councilmember Arredondo-Savage

<u>What are you looking to accomplish?</u> Protect neighborhoods, limit clustering of, or over-saturation of firearms dealers, pawn shops, and gold buying establishments.

<u>Background Information:</u> A recent use permit application to open a pawn shop and firearms dealer on the corner of Broadway and Hardy has brought attention to the fact that our zoning code doesn't prohibit pawn shops and firearms dealers from operating close to homes, schools, and parks. City code has set distance requirements to provide reasonable spacing between smoke shops, bars, and adult-oriented establishments and neighborhoods, but the code doesn't include pawn shops and firearms dealers.

To protect and preserve our neighborhoods' quality of life, we should review distance requirements for other cities and, if appropriate, language should be added to include distancing requirements for pawn shops and firearms dealers in alignment with other communities.

<u>What stakeholders should be engaged with this process?</u> Homeowners' Associations, Neighborhood Associations, and pawn dealer association.

Anticipated Timeframe and Staff Resources: Estimate of time and staff resources is 10-12 hours.

- 1. Ensuring a safe and secure community through a commitment to public safety and justice.
- 2. Developing and maintaining a strong community connection by emphasizing the importance of open government, customer service and communication with community members.
- 3. Enhancing the quality of life for all Tempe residents and workers through investment in neighborhoods, parks, the arts, human services, and city amenities, with an emphasis on equity and diversity.
- 4. Implementing sustainable growth and development strategies, including improving Tempe's public transit system to meet future needs, by actively seeking innovative technologies and leading the way in creating a more sustainable community.
- 5. Maintaining long term financial stability and vitality by focusing on economic development, business retention and generating employment to create a robust and diverse economic base.

CITY COUNCIL COMMITTEE OF THE WHOLE (COW) New Item for Review and Consideration

Meeting Date: 05/05/2016
Agenda Item: 4B2

<u>Issue Description:</u> Explore the feasibility of developing a "Housing First" approach to homelessness in Tempe, including necessary wraparound services and a community-engagement component.

Presented by: Vice Mayor Woods, Councilmembers Kuby and Navarro

What are you looking to accomplish? Establish a Committee of the Whole Working Group to explore national best practices in a Housing First model as well as identify potential grants and other funding opportunities.

<u>Background Information:</u> Despite ongoing investments in support services through organizations such as the Tempe Community Action Agency and others, the number of people experiencing homelessness within the City of Tempe has remained relatively stable. Even a brief amount of research indicates that in cities that are decreasing the numbers of their homeless population, Housing First is by far the most commonly used and universal approach to the problem and the one endorsed by the US Department of Housing and Urban Development (HUD) and the US Interagency Council on Homelessness (USICH).

"Housing First" is an approach that offers permanent, supportive housing as quickly as possible for individuals and families experiencing homelessness and then provides supportive, wraparound services and connections to the community-based supports needed to avoid a return to homelessness and transition to independent housing. Principles of Housing First, as defined by HUD, include moving people directly into housing from streets and shelters without precondition and providing a variety of wraparound services as needed. Housing First can be implemented as either a project-based or scattered-site model.

Multiple cities have launched Housing First programs including Boston, Seattle, and Denver. Each city has shown decreases in homelessness overall, as well as reduced use and cost of emergency services. Denver alone has provided permanent supportive housing to over 200 residents.

<u>Components of a Comprehensive Housing First Approach:</u> A successful Housing First program requires comprehensive wraparound services and appropriate funding, as well as a regional approach when possible. The role of the Working Group would be to identify the appropriate services and partner with direct service providers to make them available to those in need. The group would also do outreach to neighboring cities and MAG's Regional Committee on Homelessness to identify areas for partnership and collaboration. Additionally, the group would work to identify potential funding sources for both the housing and service components including grant funding, federal dollars available through HUD, and other potential sources.

- 1. Ensuring a safe and secure community through a commitment to public safety and justice.
- 2. Developing and maintaining a strong community connection by emphasizing the importance of open government, customer service and communication with community members.
- 3. Enhancing the quality of life for all Tempe residents and workers through investment in neighborhoods, parks, the arts, human services, and city amenities, with an emphasis on equity and diversity.
- 4. Implementing sustainable growth and development strategies, including improving Tempe's public transit system to meet future needs, by actively seeking innovative technologies and leading the way in creating a more sustainable community.
- 5. Maintaining long term financial stability and vitality by focusing on economic development, business retention and generating employment to create a robust and diverse economic base.

<u>Community Engagement:</u> In recent weeks, Council has had the opportunity to hear from many local residents and business owners about their concern for the people experiencing homeless in the City of Tempe. Regardless of one's position on any given program or ordinance, the community agrees on the need to try something new, as the status quo has not been helpful in solving the problem. Cities with the greatest success in combatting homelessness do so with community-driven support and Tempe should seek to do the same. A Town Hall-style community conversation would allow for an initial outreach to provide information on options and national best practices while gathering feedback on the ways in which the residents and business community might support the City's efforts.

<u>What stakeholders should be engaged with this process?</u> City Human Services staff, Tempe Homeless Coalition, Tempe Community Action Agency, MAG Regional Committee on Homelessness, direct service providers, business owners, residents, and people experiencing homelessness.

<u>Anticipated Timeframe and Staff Resources:</u> Approximately 75-100 hours of staff time is needed to gather and evaluate stakeholder and community feedback and to identify best practices and options.

- 1. Ensuring a safe and secure community through a commitment to public safety and justice.
- 2. Developing and maintaining a strong community connection by emphasizing the importance of open government, customer service and communication with community members.
- 3. Enhancing the quality of life for all Tempe residents and workers through investment in neighborhoods, parks, the arts, human services, and city amenities, with an emphasis on equity and diversity.
- 4. Implementing sustainable growth and development strategies, including improving Tempe's public transit system to meet future needs, by actively seeking innovative technologies and leading the way in creating a more sustainable community.
- 5. Maintaining long term financial stability and vitality by focusing on economic development, business retention and generating employment to create a robust and diverse economic base.

CITY COUNCIL COMMITTEE OF THE WHOLE (COW) New Item for Review and Consideration

Meeting Date: 05/05/2016 Agenda Item: 4B3

<u>Issue Description:</u> Research the benefits and feasibility of utilizing local partners to facilitate and provide free arts programming in neighborhood parks.

Presented by: Councilmembers Schapira and Navarro

<u>What are you looking to accomplish?</u> A Committee of the Whole Working Group should be formed to explore how the city might facilitate a program of free arts programming within neighborhood parks by utilizing partnerships with education partners, the business community, and local nonprofit organizations.

<u>Background Information:</u> The current Tempe Arts Plan includes six focus areas for fulfilling the community's vision for cultural development, one of which is "Arts Programming Throughout the Community". The recommendations for how to develop more community-level arts programming include the following:

- Increase and promote community-initiated arts projects.
- Support expansion of Tempe's live music scene.
- Convene an arts education collaboration including the school districts, the City, ASU, and arts educators.
- Continue and enhance informal arts programming provided in community settings.
- Develop a comprehensive, communitywide arts and cultural marketing program.

By working with local performing arts students and community partners, the City could greatly expand its arts programming and bring it directly to residents within their own neighborhood parks.

<u>What stakeholders should be engaged with this process?</u> City staff, East Valley Institute of Technology, school districts, ASU, Tempe Chamber, Childsplay, other community organizations.

<u>Anticipated Timeframe and Staff Resources:</u> Approximately 10-15 hours of staff time is needed to gather and evaluate stakeholder feedback.

- 1. Ensuring a safe and secure community through a commitment to public safety and justice.
- 2. Developing and maintaining a strong community connection by emphasizing the importance of open government, customer service and communication with community members.
- 3. Enhancing the quality of life for all Tempe residents and workers through investment in neighborhoods, parks, the arts, human services, and city amenities, with an emphasis on equity and diversity.
- 4. Implementing sustainable growth and development strategies, including improving Tempe's public transit system to meet future needs, by actively seeking innovative technologies and leading the way in creating a more sustainable community.
- 5. Maintaining long term financial stability and vitality by focusing on economic development, business retention and generating employment to create a robust and diverse economic base.
